We don't record phone calls and as I understand it; he doesn't maintain a log so we wouldn't have responsive documents.

(b)(6) Can we talk about this on Monday when I'm in the office.

Hi Everyone,

Confirming our pre-meet this afternoon to discuss the request for in-person hill briefing from the House Education and Workforce Committee and the House Appropriations Committee about the Loan Servicing Solicitation which will be scheduled in September.

FYI, we received the following from the Appropriations Committee asking if we can discuss the following at the hill briefing:

"Student Loan Servicing.-The agreement directs the Department to permit

AMERICAN OVERSIGHT
ED-17-0431-B-000034

borrowers who are consolidating their student loans to choose from among all
Federal student loan servicers when choosing a servicer for their new consolidated
loans. The Department is expected to make common performance metrics available
to borrowers to help guide their decision for which servicer to select. This will
allow student borrowers to stay with their existing servicer if they wish to, limit
unnecessary disruption for borrowers, and provide another incentive for servicers
to provide high-quality service to borrowers. The Department is directed to brief
the Committees on Appropriations of the House of Representatives and the Senate
and the Senate Committee on Health, Education, Labor, and Pensions and House
Committee on Education and the Workforce within 30 days of enactment of this
Act on how it plans to carry out this directive."

Let's discuss the call this afternoon, thanks.

-Scott

As you may know, SoFi is a leading online personal lender and also the largest refinancer of federal student loans. SoFi uses its innovative platform to deliver a streamlined customer experience that is both efficient and user friendly. Founded in 2011, SoFi has grown to over 800 employees and over 300,000 members. Headquartered in San Francisco, the company has additional offices in Helena, MT; Healdsburg, CA; Salt Lake City, UT; Claymont, DE; New York, NY; and Reston, VA. SoFi has funded more than $20 billion in student loan refinancings, personal loans and mortgages, with $8 billion of that occurring in 2016 alone.

Rob Lavet
General Counsel

Rob is responsible for managing all legal affairs for SoFi and its affiliate entities. Prior to joining SoFi, he served as a Principal in the Education and Litigation practice groups of the Washington, DC law firm of Powers Pyles Sutter & Verville (PPSV) where he represented financial institutions and post-secondary institutions on a wide variety of regulatory, litigation and transactional matters. Prior to PPSV, Rob served as General Counsel to Sallie Mae, a Fortune 300 company and the largest provider of education finance. Before his 16 year career with Sallie Mae, Rob served as a Partner in the Washington D.C. law firm of Cole Corette & Abrutyn specializing in corporate and securities litigation. He was named a top Washington D.C. corporate counsel in 2015.

Rob holds a J.D. from Georgetown University Law Center and a B.A from the University of Pennsylvania.

I will be attending with Mr. Lavet along with my colleague Mitchell Feuer.

8:00 AM - 8:30 AM — **Keiser University / Jeff Andrade -- COO's CR**

Paula Hill in Jim Manning's office told me that you are now handling Dr. Johnson's schedule. We would like to schedule a meeting for our client, Keiser University, to have an introductory meeting and discuss issues dealing with the current procedures for financial responsibility and state authorization. If possible, we like to get a few possible times that would work as we are also trying to coordinate meetings with Jim and other ED staff in the LBJ builiding. The Keiser U. Chancellor is coming up from Florida.

By way of background, the McKeon Group is headed up by former Rep, Buck McKeon, who served 22 years in Congress and is former Chairman of the House Education and Workforce Commitee and Armed Services Commitee. I lnow ead the higher education pracitce of the firm, having drafted the legistlation for Rep. McKeon establishing FSA as a performance-based organizatino in 1998, and later serving in the Bush Administation as Deputy Assistant Secretary at OPE and Speicial Assistant Secretary to the Deputy Secretary. Prior to that, I was a career policy staffer in FSA and was the FSA budget officer in the Budget Service.

We would appreciate this opportunity to meet with Dr. Johnson and offer any assistance we can as he begins his tenure at FSA.

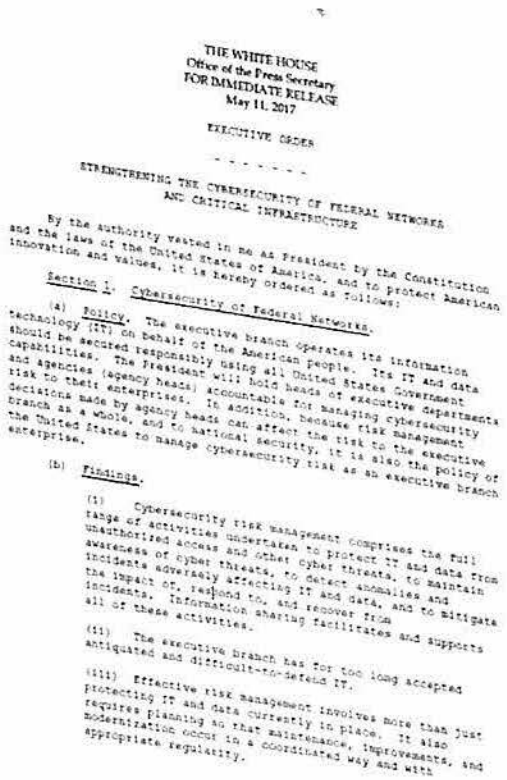
Executive Order - Summary

The Executive Order entitled **"Strengthening the Cybersecurity of Federal Networks and Critical Infrastructure"** released of May 11, 2017 directs Agency Officials to :

- Establish and ensure cybersecurity risk management processes are aligned with strategic, operational, and budgetary planning processes.
- Build and maintain a modern and secure architecture by showing preference in procurement practices for shared IT services.
- Assess the scope and sufficiency of efforts to educate and train the American cybersecurity workforce.



THE WHITE HOUSE
Office of the Press Secretary
FOR IMMEDIATE RELEASE
May 11, 2017

EXECUTIVE ORDER

- - - - - - -

STRENGTHENING THE CYBERSECURITY OF FEDERAL NETWORKS AND CRITICAL INFRASTRUCTURE

By the authority vested in me as President by the Constitution and the laws of the United States of America, and to protect American innovation and values, it is hereby ordered as follows:

Section 1. Cybersecurity of Federal Networks.

(a) Policy. The executive branch operates its information technology (IT) on behalf of the American people. Its IT and data should be secured responsibly using all United States Government capabilities. The President will hold heads of executive departments and agencies (agency heads) accountable for managing cybersecurity risk to their enterprises. In addition, because risk management decisions made by agency heads can affect the risk to the executive branch as a whole, and to national security, it is also the policy of the United States to manage cybersecurity risk as an executive branch enterprise.

(b) Findings.

(i) Cybersecurity risk management comprises the full range of activities undertaken to protect IT and data from unauthorized access and other cyber threats, to maintain awareness of cyber threats, to detect anomalies and incidents adversely affecting IT and data, and to mitigate the impact of, respond to, and recover from incidents. Information sharing facilitates and supports all of these activities.

(ii) The executive branch has for too long accepted antiquated and difficult-to-defend IT.

(iii) Effective risk management involves more than just protecting IT and data currently in place. It also requires planning so that maintenance, improvements, and modernization occur in a coordinated way and with appropriate regularity.

Agency Priority Goals (APGs) Overview

PIC.gov
Performance Improvement Council

What is an APG?

APGs are a management mechanism (legally required by the GPRA Modernization Act) of raising up a few key priorities of Agency leadership which might benefit from regular, focused conversations and additional monitoring.

Why APGs?

APGs are a known effective mechanism for advancing priorities. The 3 pronged approach includes public goal setting, quarterly leadership discussions and regular public updates which have been shown to advance mission outcomes when appropriately chosen and adequately supported by leadership.

What makes an ideal APG?

- The goal advances Administration and Agency leadership priorities.
- The goal relies primarily on strong execution to be accomplished (not legislation or new funding).
- The goal focuses on mission outcomes, customer service, or efficiency.
- The goal regularly uses data to inform decision-making and is able to make measurable progress in 2-year time frame.
- The goal focuses on improving collaboration across components or scales up a previously successful model.

Leadership Role in APGs

Agency Leadership (including Deputy Secretaries, PIOs, CFOs, and CHCOs) have significant roles to play in the development, support and realization of APGs. Specifically leadership should set goals that reflect Agency priorities and align with mission accomplishment, spearhead efforts to review progress on those goals and make sure program leaders are identifying course corrections, and promote a culture of using data and evidence to make decisions and monitor progress.

Anatomy of an APG

Problem Trying to Address	Completion Date	Target	Indicator
Support the global effort to end preventable child and maternal deaths. By September 30, 2015, U.S. assistance to end preventable child and maternal deaths will contribute to reductions in under-five mortality in 24 maternal and child health U.S. Government-priority countries by 4 deaths per 1,000 live births as compared to a 2013 baseline.

Agency Priority Goals (APGs)
Best Practices and Success Factors

PIC.gov
Performance Improvement Council

Agency Priority Goals (APGs) were created by OMB in Memorandum M-10-24 and later codified in statute by the GPRA Modernization Act of 2010 (GPRAMA). The intent of APGs is to provide agencies a mechanism to focus leadership priorities, set outcomes, and measure results. APGs bring focus to mission areas where agencies need to drive significant progress and change, and move the needle on results. Setting APGs also provides an opportunity for agencies to communicate the impacts being achieved to the American public and to show stewardship of taxpayer dollars. Additionally, APGs highlight the use of strategic management (e.g. Performance management) to deliver efficient mission outcomes.

After four cycles of APGs and review, there are some clear principles that may enable greater chance for mission success through APGs. These are provided for consideration with the recognition that no one principle is correct for every agency. These should be considered in regard to the culture, structure and business practices of an agency.

Successful APGs have:

- Leadership: Senior leadership commitment and engagement in processes
- Clarity: Well-designed, clearly articulated goal, measures, targets, and strategies
- Ownership: Agency and goal team ownership of the APG, validation provided by senior agency leaders/WH/OMB
- Routines: Adherence to routines to provide consistent, continuous focus including regular, in-person data-driven reviews chaired by the Agency Deputy Secretary
- Data: Use of data to assess progress and inform decision-making and enable organizational learning

Consider APGs that:

- Encourage work across organizational units within an Agency (i.e. bureaus, subcomponents, offices)
- Scale up activities that have previously been found to be successful
- Elevate and accelerate activities that are losing momentum and need encouragement
- Align with key mission areas allowing program and line staff see their role and empower accountability
- Have robust data available

Strengthen your APGs by:

- Establishing a formal governance structure
- Developing a model/map which explicitly outlines the connection between your APG and the supporting indicators/programs/projects through your implemented strategies (e.g., logic model, goal map, theory of change)
- Embedding APG indicators in goal/program leadership performance plans
- Ensuring a dedicated goal leader whose time is spent entirely focusing on the success of this goal
- Seeking input from peer agencies with similar mission types, as well as stakeholder groups and Congress
- Goal coordination that aligns with Agency Strategic Plan and contributes to accomplishment of Strategic Objectives

Stay Tuned!

The PIC team and OMB are scheduling an APG Implementation Summit for Fall 2017 which will focus on sharing best practices from prior cycles, workshops on tools which can help strengthen APG implementation, engaging leadership and tips on running successful data driven reviews. If you have a great APG success or tips you want to share in this forum, please contact Dana at Dana.Roberts@PIC.gov.

For more information, check out PIC.gov or reach out to the PIC staff at PICstaff@PIC.gov.

AMERICAN OVERSIGHT

The following examples illustrate how agencies have previously used APGs to drive progress on mission priorities and communicate outcomes through many of the principles listed.

Department of Energy: Nuclear nonproliferation - By the end of FY 2015, DOE/NNSA removed or confirmed the disposition of enough material to make over 200 nuclear weapons.

DOE/NNSA surpassed its cumulative target of removing or disposing 5,332 kilograms of vulnerable nuclear material (HEU and plutonium) by the end of FY 2015. Since the program's inception, as of the end of FY 2015 DOE/NNSA removed or confirmed the disposition of 5,376 kilograms of HEU and plutonium, enough material for over 200 nuclear weapons and removed all HEU from 28 countries plus Taiwan.

Department of the Interior: Renewable Energy - Since 2009, the Department of the Interior has approved the development of 16,000 megawatts of capacity for power generation or transmission using renewable energy resources; enough to potentially power approximately 5 million homes.

Prior to 2010, DOI had approved only 2,500 megawatts of wind and geothermal energy projects, but no solar energy projects. Since 2009, DOI has approved over 60 renewable energy projects including 25 solar facilities, 10 wind projects, 11 geothermal projects, and 20 transmission or connected action projects that help connect to the power grid. When built, these projects will provide more than 16,000 megawatts of power, or enough electricity to power approximately 5 million homes, produced from renewable energy resources, while providing over 24,000 construction and operations jobs.

Department of Housing and Urban Development: Ending Veterans Homelessness - Veteran Homelessness Reduced 47% Over 6 Years.

Since 2010, total homelessness among veterans has fallen from over 74,000 to under 40,000 – a 47% improvement. Moreover, the number of homeless veterans who are living on the streets has fallen by 57%. In addition, a growing list of communities, including the entire states of Connecticut, Delaware, and Virginia, have proven that ending veteran homelessness is possible and sustainable. As documented through the federal Criteria and Benchmarks, they have driven down the number of veterans experiencing homelessness to as close to zero as possible, while also building and sustaining systems that can effectively and efficiently address veterans' housing crises in the future.

Department of the Treasury: Going paperless - Hundreds of Millions of dollars saved by "going paperless."

Treasury saved the American people approximately $500 million; paper benefit payments dropped from 131 million in 2010 to 39 million in 2013 (more than 70 percent). Treasury has continued to track this as an Annual Performance Report metric to ensure continued progress after the APG sunset: in FY 2016, paper benefits continued to decrease to fewer than 18 million.

Small Business Administration: Disaster Assistance - Electronic Disaster Assistance Loan Processing Saves Time and Money: 93% percent of Disaster Assistance loans are now processed electronically.

Electronic Loan Application (ELA) system has been described as a "game changer" at the SBA. Because disaster survivors can now apply for loans sooner and faster, they can receive their initial disbursement in days, not weeks, allowing them to stay afloat and turn their energy and attention toward rebuilding. Survivors have adopted ELA as their preferred loan application method, with more than 93% of all disaster loan applications in FY 2016 being processed electronically.

Dear Postsecondary Institution:

In an effort to provide continued support to institutions of higher education impacted by Hurricane Harvey, you are invited to join a webinar hosted by Federal Student Aid (FSA) and involving other officials from the U.S. Department of Education (ED). ED and FSA officials will provide an overview and update about ED's guidance related to Hurricane Harvey and ongoing assistance. You also will have an opportunity to share any updates about how your school has been impacted, as well as inform ED and FSA about additional guidance you may need.

The webinar for schools will be held

Webinar link: fsatraining.acms.com/hurricane-harvey
To join the webinar, click the link or copy and paste the URL into your browser's address bar.

The capacity of the webinar is limited to 3,000 participants. The webinar "room" will open 45 minutes prior to the start of the presentation. Once the room opens, participants will see an introductory slide with the technical specifications needed to participate, information about accommodations for the hearing impaired, and directions for how to ask questions using the online chat feature.

If you want to participate via your mobile device, you will need to download a mobile app before the webinar begins. The webinar will be recorded and archived to the Disaster Guidance page on the Information for Financial Aid Professionals website for future reference.

While ED continues to develop guidance and other information to support you, we would like to highlight the following resources:

Subject: FSA COO - Transunion CEO meeting

Hi Jennifer! It was good speaking with you again today. I'm connecting you with my colleague Linda Holland who is Dr. Wayne Johnson's executive assistant and can help us figure out if there is a potential day and time that might allow for an in-person meeting between Transunion CEO Jim Peck and Wayne in the near future. I know we discussed that we would likely need one hour for such a meeting and that Mr. Peck might be travelling to the DC area as soon as the last week in September or soon thereafter. As I mentioned, from our perspective, a meeting sooner rather than later would be ideal, but I also understand Mr. Peck may have scheduling and travel constraints as well as prior commitments. But, to the extent it is helpful to start looking at potential dates, Linda and I spoke and she is happy to help. Linda can be reached by email and by phone: (202) 377-3712.

Thanks again for taking the time to speak with me over the last several days and for your help. I look forward to continuing our conversations.

Sincerely,

As we move to eliminate the Organizational Performance Review (OPR) and integrate all performance management activities under the QPRs, we will use this meeting to highlight POD trends and best practices. Thank you!

Sincerely,
Erin

The grant making offices developed a standard discretionary grant site visit monitoring tool and related training, and is committed to training all staff. Finally, OPE analyzed the allocation of FTE across core, non-core/essential, and non-core/non-essential work to identify potential efficiencies that could be gained through restructuring. Hi Linda,

Kaplan & Purdue want to meet over this condition in the pre-acquisition letter:

8. The TOSA provides that the Contributor Fee accrues from year to year with interest on any unpaid portion (*see* TOSA Exhibit F at §2). The Department will not approve the CIO if that provision is in effect, and will require the Contributor Fee to be capped on an annual basis to the extent of available cash during that fiscal year. It will not be allowed to accrue as an unpaid balance.

I also attached a copy of the pre-acquisition letter.

Thanks,
-Mike

Dear Mike,

Thank you very much for forwarding a courtesy copy of the September 13th letter to Dr. Vandenbosch relaying the Department's Preliminary Determinations (as defined in the letter) and outlining the material conditions for issuance of Provisional Program Participation Agreement. I know I speak for both the Purdue and Kaplan teams in expressing how much we appreciate the diligence and swift action exhibited by you, your team and the Office of General Counsel in conducting the pre-acquisition review and preparing such a thorough and timely response to the submission. We recognize and are so grateful for that effort.

We have thoroughly studied the outlined conditions and are already preparing supplemental information to address those requiring follow-up by Kaplan and Purdue in the near term. In this connection, we would find very valuable an

AMERICAN OVERSIGHT

opportunity to have a call with you and others in the Department as soon as possible to ensure our efforts are fully responsive. While the conditions were, in the main, consistent with those flagged on our status calls with you, one had not been previously mentioned. As we prepare our supplemental information, we wish to make sure the Department fully understands the practical and likely negative impact of that particular requirement on Purdue NewU's ability to make longer term investments for the benefit of the university and the students it seeks to serve.

Dr. Johnson, in responding to a letter I had sent addressing some incorrect information about Purdue NewU that had been provided to him by a third party, clearly emphasized the priority of ensuring that students are served first in any transaction structure. Since he had been kind enough to reach out at the time of my letter, I would propose including him on the call to afford us the opportunity to reiterate directly to him our complete agreement with that priority and to explain how our proposed structure reflects it.

If possible, we would like to arrange a call for Monday, September 18th. I would be happy to make the necessary arrangements.

Again, please know how much we appreciate all your efforts and your attention to this matter.

Kind regards,

Steve

Re: **Preacquisition Review of the Proposed Change in Ownership Application of Kaplan University to be acquired by Purdue NewU, an Indiana nonprofit public benefit corporation - OPE ID 00458600**

Dear President Vandenbosch:

At your request, the Multi-Regional and Foreign School Participation Division ("MRFSPD") of the U.S. Department of Education ("Department"), Federal Student Aid has conducted a preacquisition review ("Review") of the proposed Change in Ownership Application of Kaplan University ("KU" or "the Institution")-OPE ID 00458600. At the current time, KU is owned by Iowa College Acquisition, LLC ("ICA"), which is owned by Kaplan Higher Education, LLC ("KHE").

If consummated, the change in ownership ("CIO") will be accomplished pursuant to the terms of a Contribution and Transfer Agreement ("Transfer Agreement") between KHE, ICA, Purdue University ("Purdue"), and Purdue NewU, Inc. ("NewU"). NewU is a newly formed Indiana public benefit corporation which will acquire KU and its institutional assets and operations from KHE and ICA (the "Transaction"). Purdue is the sole member of NewU. The Transfer Agreement refers to Purdue and NewU collectively as the "Purdue Parties" and to KHE and ICA collectively as "Contributor."

KU and Purdue have requested the Department's approval of the Institution as a public institution once it becomes affiliated with Purdue as a result of the CIO.

A preacquisition review is undertaken prior to a CIO so that the Department can preliminarily advise an institution whether the Department has identified any problems with the institution's application or the proposed transaction, and to identify, to the extent feasible, any additional conditions that may be imposed in a Provisional Program Participation Agreement ("PPPA"). In the course of its Review, the Department reviewed the electronic application and supporting documentation submitted by KU on June 19, 2017, as well as additional supporting documentation submitted by Purdue on June 22, 2017. The materials submitted by Purdue include a copy of the Transfer

AMERICAN OVERSIGHT

Agreement with exhibits (included a copy of the Transition and Operations Support Agreement ("TOSA") with its own exhibits).

This letter sets out the results of the Department's Review of KU's requested approvals for the CIO and public institution status as result of KU becoming an affiliate of Purdue. As explained below, the Department has preliminarily concluded that, based on the information and documents provided to date, it does not see any impediment to KU's request for approval of the CIO or its request for approval of public institution status ("Preliminary Determination"). Please note however, that formal approvals of the CIO and public institution status are contingent on KU's compliance with the requirements of 34 C.F.R. § 600.20(g) and (h), the Department's review and approval of any submissions required by those regulatory provisions, and any further documentation and information requested by the Department following the CIO, including all documents related to the Transaction and KU's status as a public institution. Some of the items for further review are described below. This Preliminary Determination is intended to provide KU with the Department's current view about the CIO and request for public institution status, but it is not binding on the Department.

I. CHANGE IN OWNERSHIP AND REQUEST FOR PUBLIC INSTITUTION STATUS

A. Review of Information Provided to Date

The Department regulations identify certain covered transactions for an institution that constitute a change of ownership which require the institution to apply for and obtain approval from the Department to continue participating in Title IV, HEA programs. These include instances where an institution is sold, is merged with one or more eligible institutions, experiences a change in the ownership of the controlling stock, has a transfer of assets that comprise a substantial portion of the educational business of the institution, or has a change in status as a for-profit, nonprofit, or public institution. 34 C.F.R. § 600.31(d). To establish eligibility and to continue participation in Title IV, HEA programs, an institution must demonstrate to the Department that, after the change, the institution qualifies to be certified to participate under 34 C.F.R. Part 668, Subpart B pursuant to 34 C.F.R. § 600.31(a)(3)(ii).

Under the Transfer Agreement, KU and its institutional assets will be contributed to NewU for $1. However, the Transfer Agreement and the TOSA also provide that the consideration for the transfer of KU to NewU is the execution of the TOSA by NewU. *See, e.g.,* Transfer Agreement § 3.1; TOSA at Recital F. Pursuant to the TOSA, the Contributor will provide support services to NewU in various administrative areas, including in the following: marketing; first year student advising; admissions support services; financial aid administration (student eligibility, aid distribution, and Title IV compliance); international student recruitment; test preparation for standard licensure or admission tests, etc. *See* TOSA § 2.4 for the full list of support services to be provided.[1]

Under the TOSA, NewU and Contributor are paid their respective Academic Costs (NewU) and Support Costs (Contributor). TOSA Exhibit F at §1(b). Thereafter, KU's revenue is split between

[1] The Department reminds Contributor that it must comply with the third party servicer requirements set forth in 34 C.F.R. § 668.25. In the event that Contributor provides third party services to more than one institution, it must also comply with the third party servicer audit requirements. *See* 34 C.F.R. § 668.23(c)(2).

AMERICAN OVERSIGHT

Contributor and NewU pursuant to a waterfall distribution schedule appended as Exhibit F to the TOSA. *See* TOSA §9 (according to the recitation in the TOSA, the distribution of revenues in order of priorities set forth in the waterfall is "to provide financial protection and certain financial incentives to New University, while compensating Contributor fairly for its original contribution of the Institutional Assets") ("Distribution Waterfall" or "Distribution").

For the first five years of the TOSA 30-year term ("Phase I"), the Distribution Waterfall includes quarterly payments to NewU and Contributor from the NewU Revenue Account. There are three payments to NewU: unpaid Academic Costs; the NewU Efficiency Payment; and a $10 million Priority Payment (annually for five years). After those payments are made to NewU, three payments are made to Contributor: unpaid Support Costs; the Contributor Efficiency Payment; and the Contributor Fee of 12.5% of actual Revenues for the quarter (plus any accrued unpaid Contributor Fees).[2] Any remaining funds are then distributed to NewU. See TOSA Exhibit F at §2(a)-(f).

During the remaining 25 years (and any renewal term) ("Phase II"), the revenue is distributed in the same manner (including the 12.5% Contributor Fee), except that the $10 million annual Priority Payment to NewU ceases, and NewU is entitled to a NewU Upfront Payment (to the extent of available cash) in the amount of 10% of Remaining Revenue (as that term is described in TOSA Exhibit F at §3(b)).[3]

The Department notes that pursuant to Section 2.4 of the Transfer Agreement, except as expressly provided therein, none of the "Purdue Parties" (consisting of Purdue University and NewU) will be assuming any liabilities of the Contributor or KU (referred to in the Transfer Agreement as "ED Institution"). The Transfer Agreement also specifically excludes liability of the Purdue Parties for the Contributor's breach of any Student Enrollment Contract that occurs prior to the Closing (as that term is defined in the Transfer Agreement). Section 2.5 of the Transfer Agreement identifies in a very broad way the liabilities that are retained by the Contributor (i.e., KHE and ICA), including all liabilities resulting from the operation of KU prior to the closing date. Read together, these sections operate to attempt to relieve the Purdue Parties, including NewU, from any liabilities arising from KU's participation as a Title IV institution prior to the Closing date. As set forth below, the Department will not approve the CIO unless the Purdue Parties assume responsibility for both pre-closing and post-closing educational liabilities. The parties are not restricted in their ability to provide that KHE/ICA indemnify the Purdue Parties for any or all of those liabilities.

KU currently participates in Title IV, HEA programs as a proprietary school. In April 2017, the State of Indiana enacted legislation expanding the definition of "Approved postsecondary education institution" to include a "postsecondary SEI affiliated institution." *See* Indiana Code Ann. 21-7-13-6(a)(5) and (b)(4). To be designated a "postsecondary SEI affiliated institution," the institution, *inter alia,* must be organized as a public benefit corporation, be controlled by a state educational institution, and have its debts and liabilities backed by the controlling state institution. *See* Indiana Code Ann. 21-7-13-26.5(a). The recent legislation also allows a state educational institution to

[2] The Contributor Fee is based on "actual Revenues." See TOSA Exhibit F at 2(f)(Distribution Waterfall) and TOSA Exhibit A at page 8 (definition of "Revenues").

[3] The TOSA also includes Termination Fees and a Buy-Out option. *See generally* TOSA at §14. The parties have also provided for a revenue-based payment to Contributor in the event that NewU transfers any of the purchased assets during the Term of the TOSA. See TOSA at §13.2; TOSA Exhibit J (illustration of transfer methodology).

AMERICAN OVERSIGHT

become a member of a postsecondary SEI affiliated educational institution that it controls. *See* Indiana Code Ann. 21-7-10-1, 21-27-10-5. Pursuant to the new legislation, NewU – the prospective owner of KU – has been organized as an Indiana public benefit corporation, Purdue is the sole member of NewU, and Purdue (through its appointment of the NewU board) controls NewU. The legislation further provides that for "purposes of United States Department of Education regulations, a postsecondary SEI affiliated educational institution is subject to the administrative supervision and control of the executive branch by virtue of appointment by the governor of all or a majority of the trustees of a controlling state educational institution." Indiana Code Ann. 21-27-10-8. In addition, the controlling institution (here, Purdue) is considered to be a governmental entity equivalent to the state for purposes of the Department's regulations. Indiana Code Ann. 21-27-10-9. On August 11, 2017, the State of Indiana Higher Education Commission approved the authorization of "Purdue NewU" (by that name and under its official name once selected) as a postsecondary state educational institution ("SEI") affiliated institution controlled by Purdue.

Based on its preliminary review of the supporting documents submitted by Purdue and the representations by representatives of Purdue and KHE, the Department has concluded that control of NewU/KU will not be retained by any entity or person who controls KHE or ICA.[4] Purdue is the sole member of NewU, and the trustees of Purdue appoint the members of the NewU Board. *See* TOSA § 2.1. This conclusion is material to the Department's Preliminary Determination, and will need to be confirmed after the Transaction occurs. The issue of control might be viewed differently if a majority of NewU board trustees have ties to KHE/ICA, or other affiliates of Kaplan/Graham Holdings.

B. The Department's Preliminary Determination

Based on the facts as described above, the Department has not identified any known or present impediment to the CIO whereby KU and its institutional assets will be transferred to NewU pursuant to the terms of the Transfer Agreement and the TOSA. In addition, the Department has not identified any known or present impediment to Purdue and KU's request for the Institution to become a public institution by virtue of its affiliation with Purdue. The Department's determination as to KU's public status is based upon the Indiana legislation discussed above, and is contingent upon the Indiana Commission of Higher Education's authorization of KU as a postsecondary SEI affiliated institution, and confirmation by the Purdue board of the complete control by Purdue over NewU/KU. In addition, the Department's Preliminary Determinations with regard to the CIO and KU's public institution status are specifically based on the following, which will constitute material conditions for issuance of a PPPA:

1. The CIO and public institution status are approved by all of KU's federally recognized accrediting agencies.

2. The Department will require both Purdue Parties (Purdue and NewU) to sign the PPPA.

[4] The Department understands that many of the academic employees of KU will continue under the new ownership, and support services under the TOSA will be provided by KHE.

AMERICAN OVERSIGHT

3. NewU/KU has its debts and liabilities backed by Purdue, which constitutes an instrumentality of the State of Indiana for purposes of the Department's regulations, in accordance with Indiana Code Ann. 21-7-13-26.5(a) and 21-27-10-9.

4. Notwithstanding any provisions to the contrary in any of the documents relating to the Transaction (including as described above in the Transfer Agreement), the Purdue Parties will assume responsibility for liabilities resulting from the operation of KU as an educational institution, whether they are known or unknown, and whether they accrue prior to, or after the closing of the Transaction ("Educational Liabilities"). Educational Liabilities include all liabilities relating to KU's participation in Title IV, HEA programs, as well as all liabilities relating to Student Enrollment Contracts. However, the Purdue Parties' assumption of the Educational Liabilities does not limit or relieve KHE and ICA from their liability for pre-closing Educational Liabilities.

5. By the date that NewU/KU delivers the PPPA to the Department for countersignature, the institution will have been re-named to include "Purdue" in its name. Within 30 days of the PPPA delivery to the Department, all institutional assets, materials, and communications (to the extent that they contain "Kaplan" branding) must be re-branded to include the name "Purdue."

6. Within 10 days after the transmission of this pre-acquisition letter, and consistent with the Transaction documents and representations to the Department, Purdue and NewU must affirm by documentation to the Department that Purdue exerts full control over NewU and its academic operations, including appointment of the members/trustees of NewU's board and continuing oversight by the Purdue board.

7. Within 10 days after the transmission of this pre-acquisition letter, Purdue shall submit a detailed description of the 12.5% Contributor Fee payment to KHE/ICA provided for in the TOSA which demonstrates the plan for ensuring that students will be served first, and that all educational and operational expenses are being covered prior to any portion of the Contributor Fee being paid to KHE/ICA.

8. The TOSA provides that the Contributor Fee accrues from year to year with interest on any unpaid portion (*see* TOSA Exhibit F at §2). The Department will not approve the CIO if that provision is in effect, and will require the Contributor Fee to be capped on an annual basis to the extent of available cash during that fiscal year. It will not be allowed to accrue as an unpaid balance.

9. Following the CIO, Purdue must submit consolidated financial statements to the Department that include NewU/KU.

II. UNINTERRUPTED PARTICIPATION IN THE TITLE IV PROGRAMS PRIOR TO EXECUTION OF THE PROVISIONAL PROGRAM PARTICIPATION AGREEMENT

A. Requirements within 10 days following the Change of Ownership

When a change in ownership occurs, the Department may continue the institution's participation on a provisional basis if the institution submits a "materially complete application," as described in 34 C.F.R. § 600.20(g), that is received by the Department no later than 10 business days after the date the change occurred. If a materially complete application is submitted, the Department may consider offering the Institution a Temporary Provisional Program Participation Agreement ("TPPPA"), pending the Department's and the Institution's execution of a new PPPA.

To submit a materially complete application (34 C.F.R. § 600.20(g)(2)), an institution must submit the following[5]:

		Status
1	Complete electronic Application for Approval to Participate in the Federal Student Aid programs;	E-App Submitted on June 19, 2017. Need to submit Section L (signature page) and any supporting documentation that has not been submitted.
2	Copy of the Institution's state licenses or equivalent that: a) Was in effect on the day before the change in ownership; and b) Authorized the Institution to provide a program of postsecondary education in the state(s) in which it is physically located;	Must be submitted for all states where the Institution will have a physical location.
3	Copy of the accrediting agency(ies) approval that: a) Was in effect on the day before the change in ownership and granted the Institution accreditation status; and b) Includes approval of the non-degree programs it offers;	Must be submitted from all federally-recognized accrediting agencies that provide accreditation to KU. Must also submit accrediting agency approval of the redesignation of the main location from Davenport, Iowa to Indianapolis, Indiana.
4	Audited financial statements of the institution's two most recently completed fiscal years that are prepared in accordance with the requirements of 34 C.F.R. § 668.23. Under 34 C.F.R. § 668.23(d), these statements must be prepared on an accrual basis in accordance with generally	These have been submitted for FY 2015 and 2016. In addition, financial statements for FY 2017 must

AMERICAN OVERSIGHT

	accepted accounting principles ("GAAP"), and audited by an independent auditor in accordance with generally accepted government auditing standards ("GAGAS"); and	be submitted by June 30, 2018.
5	In accordance with 34 C.F.R. § 600.20(g)(2), a new owner is required to submit audited financial statements of its two most recently completed fiscal years that are prepared and audited in accordance with the requirements of 34 C.F.R. § 668.23(d), including statements prepared in accordance with GAAP and audited in accordance with GAGAS.	NewU has not been in existence for two years, nor does it appear that NewU can produce audited financial statements that demonstrate any substantial business experience to date. Because NewU/KU will have its debts and liabilities backed by Purdue, this requirement is waived.

B. Continuation of the TPPPA

In accordance with 34 C.F.R. § 600.20(h)(2)(iii), the TPPPA expires on the last day of the month following the month in which the CIO occurred. At the Department's discretion, the TPPPA may be extended on a month-to-month basis only if, prior to the expiration date, an institution submits:

		Status
6	A "same day" balance sheet showing the financial position of NewU as of the date of the ownership change, that is prepared in accordance with GAAP and audited in accordance with GAGAS;	Must be submitted.
7	Approval of the change in ownership from the state(s) in which the institution is located by the state agency that authorizes the institution to legally provide postsecondary education in that state;	Must be submitted. Documentation of the State of Indiana Commission of Higher Education's approval of the Institution's status as a postsecondary SEI affiliated institution has been received by the Department. Please submit any related approvals from the State of Indiana.
8	Approval of the change in ownership from the institution's accrediting agency(ies); and	Must be submitted. In addition, must submit the accrediting agencies' approval of the Institution's public institution status.
9	If the Institution is not exempt from the requirement under 34 C.F.R. § 668.14(b)(15), a copy of its Default Management Plan.	Must be submitted (not exempt).

AMERICAN OVERSIGHT

To the extent the above items have not already been provided, if NewU/KU fails to provide them by the stated expiration date of the TPPPA, the TPPPAs will expire on that date, without further notice.

C. Additional Documents and Information Required for Department's Review

In addition to the foregoing documents, the NewU/KU must also submit the following documents and information (no later than the period described in 34 C.F.R. § 600.20(h)(2)(iii)) for the Department to complete its review of the CIO and conversion to public institution status:

10	A copy of the agreement by which the CIO will be consummated, including any related documents or agreements;	The executed Transfer Agreement was submitted to the Department on June 22, 2017; please submit the executed TOSA. Submit any amendments to those agreements which are necessary to comply with the Department's requirements set forth in this letter, and any other amendments. In addition, submit a copy of the closing index for the Transaction.
11	Copy of any agreements between the institution or its new owner and any entity that is owned by former employees, the former owner, board member of the new owner, or party related to either the new owner or the pre-CIO owner. Agreements include, but are not limited to: consulting, employment, leasing, and management services agreements; and	If agreements other than the TOSA exist, please submit them.
12	The letter of public status in accordance with 34 C.F.R. § 668.171 (c)(B).	Must be submitted in eZ-Audit system.

Unless and until the conversion to public institution status is approved by the Department, the parties are reminded that the Institution must continue to report its Title IV revenue percentages ("90/10 percentages") and its gainful employment data. The Department's procedures require a proprietary institution converting to another status to report its 90/10 percentages in the first fiscal year following the approval of the conversion. The Department has been advised that the Higher Learning Commission ("HLC") will not be reviewing the CIO and conversion to public institution status until its February 28, 2018 commission meeting. Because of the timing, KU will submit its 90/10 audit for FYE December 31, 2017 to the Department on or before June 30, 2018. That audit will cover the last fiscal year prior to the HLC commission meeting. If the Department and HLC give final approval to the CIO and the conversion to public institution status, and KU has a passing

AMERICAN OVERSIGHT

90/10 audit for FY 2017, no further 90/10 audits will be required. In reaching its decision to relieve KU of further 90/10 reporting if the FY 2017 90/10 audit passes, the Department has considered KU's compliance with 90/10 over the last three years (FY 2014 (81.31%), 2015 (78.82%) and 2016 (76.71%)).

D. Next Steps

Once the CIO takes place, NewU/KU must notify the Department within 10 business days. Since KU has already submitted the electronic preacquisition application, please send this notification and the other documentation required for a materially complete application to Shein Dossa and Shari Mecca at Shein.Dossa@ed.gov and Shari.Mecca@ed.gov. However, as soon as NewU changes the name of the Institution, an updated application should be submitted.

You are reminded of the recommendations the Department has provided to all institutions in the Federal Student Aid Handbook. If it has not already done so, KHE/ICA should provide the Purdue Parties with copies of KU's existing Eligibility and Certification Approval Report ("ECAR"), institutional refund policy, return of Title IV funds policy, any required default management plan, program reviews, audited financial statements (for at least the two most recently completed fiscal years), and compliance audits.

If you have any questions, please contact Shein Dossa at 215-656-6461 or Shari Mecca at 646-428-3757.

Sincerely.

Subject: Meeting Request

Dear Ms. Holland,

I write as general counsel to Academic Partnerships to request a meeting with Dr. Wayne Johnson to discuss a pending matter with the Third-Party Servicer Unit.

Academic Partnerships ("AP") is a provider of online program management services ("OPM") and focuses on assisting nonprofit institutions with helping those schools convert their courses to an online format, manage their online platform, and then conducting recruitment and retention services for students in the online programs. AP does not perform financial aid services or any services required under Title IV or the regulations for any of the 45 institutions of higher education with which we work.

This July, the Third-Party Servicer team within FSA unilaterally notified AP, much to AP's surprise, that it was a "Third-Party Servicer." (The letter is attached to this email). This designation, which has traditionally applied to service providers working on financial aid-related issues, carries with it a number of requirements, including that the service provider be jointly and severally liable with its client institution of higher education for findings of the Department. This liability is undefined by the Department and a source of great concern.

We are not a third-party servicer and believe we can satisfactorily make that clear to the Department. However, the Department's letter comes just as we were in final discussions regarding certain financing facilities that will enable AP to further expand and improve its current offerings to universities. In light of the designation, our discussions unfortunately are on hold until we can clarify AP's status with the Department, and the indications from the Department's Third Party Servicer Unit are that it will take months for such a clarification in the normal course.

We respectfully request a meeting with Dr. Johnson to discuss this issue so that we may resolve it quickly. Members of my company and I will be in Washington DC on September 25th and 26th and would greatly appreciate if Dr. Johnson could make time to meet with us on either day at a time of your convenience. If there is a better day or time, please let me know.

Thanks you for your consideration of this request. We look forward to your response.

Sincerely,

Chad

Re: Third-Party Servicer Requirements

A third-party servicer is an entity or individual that administers any aspect of an institution's participation in the Title IV programs, including, but not limited to, services and functions necessary:

- For the institution to remain eligible to participate in the Title IV programs,
- To determine a student's eligibility for Title IV funds,
- To account for Title IV funds,
- To deliver Title IV funds to students, or
- To perform any other aspect of the administration of the Title IV programs.

An external entity or individual accessing Department systems (NSLDS, COD, CPS, etc.) that contain personally identifiable student information, and/or accessing personally identifiable student information downloaded from a Department system to perform any Title IV function or service on behalf of an eligible institution is considered a third-party servicer. Performing interactive financial aid counseling in person, over the phone, and/or by electronic means is a Title IV function. This includes the operation of call centers to assist students through the financial aid processes necessary to award and disburse Title IV funds. See Dear Colleague Letter, GEN-16-15.

The Department has reviewed information provided by one or more institution(s) that contract with Academic Partnerships and has determined that Academic Partnerships meets the definition of a third-party servicer. Specifically, documentation provided by these institutions indicates that the partner support experts employed by Academic Partnerships work with each institution to identify and streamline key business processes (including the processing of financial aid applications) to proactively mitigate any potential challenges during and after the launch of the contracted services between an institution and Academic Partnerships. As part of its comprehensive service offering, Academic Partnerships works with each institution's registrar, financial aid, bursar, IT and other administrative offices to ensure all necessary student data is

AMERICAN OVERSIGHT

appropriately mapped and exchanged with Academic Partnerships in a secure, compliant and efficient manner.

Among other things, Academic Partnerships' enrollment specialists assigned to an institution are trained to support prospects in financial aid advisement and are well acquainted with the various financial aid options available at the institution. The enrollment specialist help students navigate the overall financial aid process and direct them in completing the activities required to receive financial aid by utilizing the information from the integrated files provided by the institution to Academic Partnerships. The enrollment services representatives from Academic Partnerships are viewed as a natural and transparent extension of the institution to its students. While students are referred to an institution's financial aid staff as needed, Academic Partnerships contracts indicates its approach results in improved student response time and a decreased burden on an institution's financial aid office.

Based on the Department's review of the information described above, the Department has determined that Academic Partnerships is performing Title IV functions or services that meet the definition of a third-party servicer. Employees of Academic Partnerships are utilizing information downloaded from Department systems into institutional information systems to provide financial aid counseling assistance to students. As such, Academic Partnerships is required comply with applicable third-party servicer regulations including the requirement to complete and submit a Third-Party Servicer Data form. The form can be accessed at: https://ifap.ed.gov/eannouncements/021215ThirdPartyServDataFmRptReq.html

FY 2018-22 Strategic Plan Goal Leaders Meeting
AGENDA

Background

- For the past year, career staff participated in several working group meetings to develop the framework and initial draft of the FY 2018-22 Strategic Plan, which is with OMB for review.
- (b)(6)
-
-

Role of the Goal Leader

- Government Performance and Results Act Modernization Act of 2010 (GPRAMA) requires "agencies to identify agency officials responsible for the achievement of each performance goal, who shall be known as goal leaders."
- OMB Circular A-11, Part 6, section 200, states that –
  - A goal leader is an official named by the agency head or COO who will be held accountable for leading implementation efforts to achieve a goal. A goal leader will lay out strategies to achieve the goal, manage execution, regularly review performance, engage others as needed and make course corrections as appropriate. Agency goal leaders will be individual(s) authorized to coordinate across an agency or program to achieve progress on a goal.
  - The goal leader for each strategic objective also has responsibility for driving progress on the individual performance goals supporting that strategic objective and managing associated risks.
  - The deputy goal leader supports the goal leader.
- The expectation is that the goal leader will provide direction and leadership to the goal team and be prepared by staff to attend and fully participate in Quarterly Performance Reviews with the Deputy Secretary.
- The PIO team recommends the goal and strategic objective leaders identify a staff member from his or her team that will help coordinate the collection and reporting efforts for them, but note that the goal leader responsibilities cannot be delegated to these staff.

Work Group

- POCs identified staff last winter to participate in strategic planning meetings (see attachment).
- What adjustments or additions would you like to make to the Goal Work Group?
  Note the above question is to be discussed and answered during this meeting so that we can schedule the work group meeeting.

Performance Metric:	*Please specify the performance metric. If combining more than one metric in this questionnaire, please use clarifiers (e.g., (a), (b)) and address **all** questions for **each**.*
Metric Type:	*Please specify Internal or External.*
Data Source(s):	*Be as specific as possible (e.g., if an item from a specific table in a specific report is used then include that information).*

I. Assumptions and Calculations:

1) How does an improvement in this performance metric demonstrate progress towards the goal and strategic objective?

2) Following *examples (a)* and *(b)* provided in the table below addressing baseline year, baseline data, current and out-year targets (2nd and 3rd designated columns), when actuals are to be reported, and the assumptions, decision rules and calculations, please complete the information for the metric(s) in the blank rows provided.
Please use designations of Collegiate Academic Year (AY), K-12 School Year (SY), Calendar Year (CY), or Federal Fiscal Year (FY). Also, if the baseline year for example is FY 2017 and that is the current FY, then the FY 2017 target would be stated as "N/A" and the baseline data "TBD" because the data have not yet been calculated.

Baseline Year / Baseline Data	Baseline Setting Assumptions or Methodology	(1st) Current FY / Target	(1st) Current FY Actuals Reported	(2nd) FY Following Current FY / Target	(2nd) FY Actuals Reported	(3rd) Next FY / Target	(3rd) Next FY Actuals Reported	Please describe assumptions / decision rules / calculation(s)
Example (a): FY 2014 (SY 2013-14) / 15	*The baseline year and data reflect the first year self-reported data from 15 states were collected.*	*FY 2015 (SY 2014-15) / 17*	*FY 2016 (May 2016)*	*FY 2016 (SY 2015-16) / 19*	*FY 2017 (May 2017)*	*FY 2017 (SY 2016-17) / 21*	*FY 2018 (May 2018)*	*The data derive from the XY 2014 annual report released May, 2015. The calculation is performed by XY and involves XY analyzing self-reported state data, aggregating and providing the aggregated data to the Department for reporting.*
Example (b): FY 2014 / 26%	*Baseline year and data reflect grant award trends analyzed through FY 2014 and the targets reflect the incremental 2% increase anticipated per FY.*	*FY 2015 / 28%*	*FY 2015*	*FY 2016 / 30%*	*FY 2016*	*FY 2017 / 32%*	*FY 2017*	*Based on the trends analyzed through FY 2014, the rate of increase has been averaging 2%, which is reflected in the FY 2015 and out-year (2nd and 3rd columns) targets. The program office receives the disaggregated data from NSLDS, manually aggregates by students in X region, and then determines the rate of increase in enrollment by performing Y calculation. The result is then reported.*

3) Are the same decision rules and assumptions used to calculate the baseline also used to calculate the actuals? (Yes/No) If No, please provide the reason for the change, the revised calculation method, the updated baseline and targets and how they all relate to what's being reported.

The GAO defines **verification** as a process of checking or testing performance information to assess other types of errors, such as errors in keying data.

The GAO defines **validation** as an effort to ensure that data are free of systematic error or bias and that what is intended to be measured is actually measured.

2017 Principal Office FMFIA and A-123 Risks, Challenges and Control Deficiencies--IT

Challenge/ Risk/ Control Deficiency	Deficiency Description	Years reported	FY17 Office
Challenge/ Risk	Conversion of core accounting system from 'end-of-life' Oracle Financial version 11i to the Enterprise Business Suite version 12i.		OCIO
Carry Forward Challenge/ Risk	OPE continues to function with outdated IT system. POCs must continuously update three systems: C-SAM, e-CPIC and a SharePoint site. These systems collect a great deal of overlapping data and can only be updated during specific time windows. The time windows are not synchronized so the data collected is not synchronized which creates discrepancies. The limited and difficult reporting capabilities reduces the usefulness of the systems as tracking and managment tools.	FY 16 FY 17	OPE
Challenge/ Risk	Risks were identified in OCR's Case and Activity Management System and Civil Rights Data Collection (CRDC) web hosting site.	FY 17	OCR
Carry Forward Challenge/ Risk	**Resources:** OCIO has made ED compliant with the Federal Information Technology Reform Act (FITARA). However, challenges remain to mature our processes and procedures to strengthen the security and acquisition management oversight of our IT inventory. Engagement from Department leadership and system owners will play a major role to ensure this assessment provides the appropriate visibility and oversight of IT resources across the Department. Any lack of visibility or oversight of IT resources could result in the loss of system authorization and funding.		OCIO
Challenge/ Risk	The Department continued its Cybersecurity Risk Management – Assessment and Authorization reviews of IT systems in its FISMA reportable system inventory. Appropriate POC use of systems is always a risk.	Ongoing	OCIO
Challenge/ Risk	The Department must strive towards a robust capability to identify and respond to malware installations or intruder activity because anti-virus (AV) detection software often lags behind the most sophisticated malware. This will be an ongoing risk as ED endeavors to stay ahead of bad actors.	Ongoing	OCIO

Response
Vendor assures ED that it will provide sustaining support and security patches until conversion is complete.
OCR is working with contractors to address the areas identified to bring systems in compliance with FISMA.
OCIO has entered the Maturity Phase of the FITARA plan, which entails an Information Technology Systems Assessment. This assessment is critical to improve transparency and create visibility across the Department's IT systems and investment inventory to effectively leverage strategic sourcing initiatives. Additionally, the assessment will help identify and address potential risks and vulnerabilities, required to enhance Governance and increase the security posture of the IT Portfolio.
The Information Assurance Services (IAS) office selects a number of IT systems for a review of the system security controls, to ensure that the selected controls are in place and functioning properly.
OCIO hasidentified key knowledge, skills, and abilities required to identify and respond to malware intrusions; coordinated with DHS to leverage services offerings that may address some capability gaps and provide ED visibility into indicators of compromise; leveraged existing capabilities to perform independent verification and validation of contractor submitted data; and, reviewed contractual requirements for infrastructure service providers and assessed contractor ability to provide malware detection capabilities.

AMERICAN OVERSIGHT

Response
Actions taken to address the challenge included: established quarterly Cybersecurity Risk Management Forums, through which information system specific vulnerability management and remediation status is shared at all levels of the Department; performed an assessment of required knowledge, skills, and abilities of Information Security Continuous Monitoring (ISCM) stakeholders; met with information system owners to provide guidance and training; enforced existing OCIO guidance by revoking network access to ED employees and contractors who did not comply with cybersecurity training requirements.
OCIO continued efforts to fine-tune Data Loss Prevention (DLP) tool
OCR will continue to work closely with ED's Budget Service to request adequate funding levels.
OCR will continue to work closely with ED's Budget Service to request adequate funding levels.

TOPIC BRIEFING for the SMC/DEPUTY SECRETARY

TOPIC TITLE: IRS Data Retrieval Tool Implementation
DATE: 10/18/2017
INDIVIDUAL BRIEFING THE SMC: Jay Hurt

PURPOSE: Informational Briefing

BACKGROUND/SUMMARY:

The Internal Revenue Service (IRS) maintains an application referred to as the Data Retrieval Tool (DRT) that integrates with FSA's systems to automatically assist with two FSA processes:

1) Student eligibility. The FAFSA applicant can obtain their taxpayer information and automatically populate the FAFSA with that info, which is then used to determine how much, if any, student aid they may receive.
2) Loan servicing. The Federal student loan borrower can obtain their taxpayer information and automatically populate the Income-Driven Repayment (IDR) application with that info, which is then used to determine their eligibility for an IDR plan.

The IRS DRT was implemented in January 2010, but only after significant controversy and pressure from senior political officials from Education, Treasury, OMB, and the White House. In addition, on October 1, 2016, FSA successfully implemented Early FAFSA and Prior-Prior. This implementation allowed more time for FAFSA applicants to make college choice decisions and use income and tax information from a year earlier. By using earlier tax data, fewer applicants were required to submit corrections to their FAFSA after they completed taxes, also allowing more of them to use the IRS DRT. Students and schools lauded this change as significant FAFSA simplification. Further FASFA simplification is being contemplated by the Senate HELP committee, supported by ideas from the Higher Education community, many of which rely on an operational IRS DRT as a central aspect of their proposed plans.

In November 2016, the IRS approached FSA about a risk that they newly identified with the IRS DRT. Over the next four months, FSA coordinated numerous meetings with the IRS to try to clearly define the problem, document impacts associated with shutting down the DRT, and document solution alternatives.

In March 2017, the IRS identified suspicious activity that necessitated the shutdown of the IRS DRT. The IRS and FSA were able to implement the "masked encryption" solution that hid the data from view, while allowing it to transfer from the IRS to FSA. The solution was implemented for IDR applications on June 2, 2017. It was implemented for the 2018-19 FAFSA on October 1, 2017. Both implementations were successful.

TOPIC BRIEFING for the SMC/DEPUTY SECRETARY

TOPIC TITLE: FY 17 FMFIA Results
DATE: 10/18/2017
INDIVIDUAL BRIEFING THE SMC: April Bolton-Smith

PURPOSE: Decisional Briefing

BACKGROUND/SUMMARY: The *Federal Managers' Financial Integrity Act of 1982* (FMFIA) requires management to establish, maintain, evaluate, improve, and report on the Department's internal control and financial systems. As part of this requirement, the Secretary signs an annual statement of assurance detailing whether there is reasonable assurance that the Department's internal control system is achieving its intended objectives related to efficient/effective operations, legal compliance, and reporting. The annual statement of assurance is published in the Agency Financial Report (AFR). The Secretary's assurance comes from the individual assurances made by the 20 principal offices in their FMFIA letters.

As part of the annual assurance process, the head of each POC evaluates its respective internal controls and asserts that key controls are in place and are working as intended or provides a detailed description of significant deficiencies, material weaknesses, or other matters of non-conformance.

If significant deficiencies are raised, OCFO staff consults the SAT to determine if the deficiencies may actually rise to the level of a material weakness. If potential material weaknesses are identified, they are evaluated by the SMC to determine if they should be reported in the Secretary's assurance statement.

There were 7 significant deficiencies raised in the FY 17 POC assurance letters. Additionally, while not raised as a significant deficiency, 5 POCs raised staffing as a potential risk area.

The SAT convened on 10/12 to review the significant deficiencies and other risks raised in the POC assurance letters and determined that no issue rose to the level of a material weakness. This briefing is to determine if the SMC concurs with the conclusion of the SAT that no material weaknesses should be reported in the FY 17 AFR.

TOPIC TITLE: 2017 Improper Payment Estimates for Pell and Direct Loan (DL) Programs
DATE: 10/18/2017
INDIVIDUAL BRIEFING THE SMC: Jay Hurt

PURPOSE: Informational Briefing

BACKGROUND/SUMMARY:

Preliminary 2017 estimates of improper payments for each of the Dept.'s two risk-susceptible programs are available, and undergoing final QA review. These estimates will be reported publicly in the Agency Financial Report (AFR) Other Information (OI) Payment Integrity section to be published on 10/14/2017. These estimates and other IP related information will also be reported separately to OMB in response to an OMB data call. OMB will make this data available to the public on PaymentAccuracy.gov on or about 11/15/2017.

Program	FY 2017 Outlays[1]	FY 2017 Estimates	FY 2017
Pell Grant		(b)(5)	
Direct Loan			

(b)(5)

For additional context...

Estimation Methodology
The Department obtained approval from OMB to use an alternative methodology for estimating improper payments for the Pell and DL programs. The alternative methodology does not use statistical sampling techniques. Instead, it leverages data collected through FSA Program Reviews, which include procedures such as determining whether schools properly performed verification of students' self-reported income, identifying conflicting applicant data, student academic performance, and eligibility on the disbursed funds for a sample of students in each review. The Department's alternative methodology lacks the precision that a statistical methodology would provide, but is less costly and more efficient.

[1] The final FY 2017 Outlays are being finalized today (10/16/17) and will be incorporated upon receipt.

Reduction Targets

(b)(5)

Internal Control over Improper Payments

The Department created a robust internal control framework that includes over 500 controls designed to help prevent, detect, and recover improper payments. In designing controls, the Department attempts to strike the right balance between making timely and accurate payments and ensuring that controls that are put in place are not too costly or overly burdensome and thereby deter intended beneficiaries from obtaining funds. Additionally, the Department must rely heavily on controls established by external entities that receive Department payments, including federal, state, and private organizations and institutions, because they further distribute the funds they receive from the Department to subordinate organizations and individuals. Because these "third party" controls are outside of the Department's operational control, they present a much higher risk to the Department, as evidenced by the work of the Department's Office of Inspector General (OIG) and our root cause analysis. When control deficiencies are detected, either within the Department or at external entities, the Department seeks to identify their root causes, develop corrective action plans, and track the corrective actions through to completion.

TOPIC BRIEFING for the SMC/DEPUTY SECRETARY

TOPIC TITLE: Management Challenges
DATE: October 18, 2017
INDIVIDUAL BRIEFING THE SMC: Phillip Juengst/Tim Soltis

PURPOSE: Decisional Briefing

BACKGROUND/SUMMARY:

- OIG has issued for comment the draft FY 2018 Management Challenges report. It includes 4 of the 5 challenges reported for last year:
  - **Improper Payments**
  - **Information Technology Security**
  - **Oversight and Monitoring** (includes an FSA section and grant section)
  - **Data Quality and Reporting**
  - Information Technology System Development and Implementation (dropped for FY 2018 due to lack of recent audit work; OIG notes it may return in the future pending audits of FITARA and PIVOT)
- ED has been implementing and tracking progress toward an action plan with goals, indicators and milestones, reported publicly in the FY 2018 Annual Performance Plan
- The challenges and action plan have been integrated into the enterprise risk portfolio, but revisions will need to be made to the action plan to align with the new mission and management priorities reflected in the Strategic Plan, reform efforts, and FY 2019 budget (all released in February)
- Management Challenges reflect the link between our inherent mission risks and management deficiencies (internal control break-downs in operations, compliance or reporting) identified in OIG audits as well as internal management reviews reported to the SMC through the internal control program and annual FMFIA assurance letters
- The OIG report generally does not distinguish between inherent risks and ED management deficiencies
- OCFO has coordinated comments on OIG's draft report, including narrative of progress and accomplishments for inclusion in the report, as well as inclusion in the Agency Financial Report and the Semiannual Report on Audit Follow-up

More information on select components of the re-estimate:

IDR Model Changes
The GAO audit, "Federal Student Loans: Education Needs to Improve Its Income Driven Repayment Plan Budget Estimates" identified several areas in which ED could improve its IDR cost estimates. Largely in response to this audit, as well as concerns raised in FY 2016's Independent Auditor's Report, in FY 2017 the Department incorporated an adjustment for inflation into the Department's IDR sub-model, modified the current IDR sub-model to estimate IDR subsidies by loan type, and implemented methods to address concerns regarding the volatility of the sub-model's income data. In addition, default; collection; death, disability, and bankruptcy; and prepayment rate assumptions used by the sub-model were updated. The combined effects of these changes was a net downward re-estimate of $14.7 billion.

Repayment Plan Selection
The GAO audit, "Federal Student Loans: Education Needs to Improve Its Income Driven Repayment Plan Budget Estimates" recommended the Department help ensure that subsidy estimates reasonably reflect trends in IDR plan participation. In response, the Department updated its methodology for repayment plan selection, taking into account the timing of repayment plan selection as well as recent growth

AMERICAN OVERSIGHT

trends in the selection of income-driven repayment plans. The combined effects of these changes was a net upward re-estimate of $18.4 billion.

Death, Disability, and Bankruptcy

The Department made major updates to the death, disability, and bankruptcy assumption in FY 2017. These updates included a revised accounting for the effect of a matching agreement with Social Security Administration, updates to closed school regulations, and revised borrower defense. Updates to the data used to calculate discharges was also incorporated. The combined effects of these changes was a net upward re-estimate of $9.2 billion.

The Committee requests an update on the Department's strategy and its outcomes on this topic.	130			
2018	None Specified					Update to Report			Education Costs Related to Illegal Immigration	The Committee requests an update to the report submitted to Congress by the Department of Education on this topic as it appeared in the explanatory statement accompanying division H of the Consolidated Appropriations Act, 2016 (P.L. 114–113).	133			
2018	45 days post enactment					Operating Plan (applies to plans for funding that depart from allocations made through the appropriation act)				The Committee continues a provision requiring each department and related agency funded through this Act to submit an operating plan within 45 days of enactment, detailing any funding allocations that are different than those specified in this Act, the accompanying detailed table, or budget request.	146			
2018	Quarterly					Quarterly Report			Quarterly Contract Report	The Committee continues a provision requiring the Secretaries of Labor, Health and Human Services, and Education to submit a quarterly report to the Committees on Appropriations of the House of Representatives and the Senate containing certain information on noncompetitive contracts, grants, and cooperative agreements exceeding $500,000 in value.	146			
										The Committee continues a provision relating to performance partnership pilots.	146			note: provision just allows these pilots again but doesn't prescribe anything specific to deliver
2018	Quarterly					Quarterly Report			Quarterly Status of Balances Reports	The Committee continues provision requesting quarterly reports on the status of balances of appropriations from the Departments of Labor, Health and Human Services and Education and the Social Security Administration.	146			
2018	None Specified/CJ					"Encourages" -- Suggest including something on this topic in at least one 2019 CJ			Maker Education	The Committee recognizes the need for increased maker education in career and technical education in addition to K-12 curriculum in response to the increasing reliance on tools such as 3D printers, laser cutters, desktop machines, and programs for digital design becoming more affordable. Maker education exposes students to hands on project based learning approaches that build critical skills needed to increase economic growth and encourages students to imagine, create, innovate, and collaborate through the process of manufacturing, testing and demonstrating their ideas. The Committee encourages the expansion of maker-spaces in schools, which are community spaces that provide access to tools, technology and knowledge for learners and entrepreneurs and result in the prototyping or creation of physical goods, and support the development of educational opportunities for personal growth, workforce training, and early stage business ventures.	123			
2018	180 days post-enactment								Neglected, Delinquent and At-Risk Youth	Within 180 days of enactment of this act, the Secretary is directed to submit a report to the Committee describing how each State is meeting the re-entry requirements for youth included in ESSA.		163

2018	None Specified		Report on feasibility of designating a Native language center and potential costs	Indian Education National Activities -- establishing a national Native American Language Center	Committee recognizes that the establishment of a Native American Language Center to function as a consortium for institutions of higher education that have significant experience and expertise in Native American languages and Native American language medium education would be a strong way to provide nationwide coordination for Native American language activities. In addition, it could promote best practices, develop curricular materials for Native American languages, disseminate high-quality research on the efficacy of programs of instruction in these languages, and serve as an information clearinghouse and hub for distance learning and continuing professional development in Native American language education. Further, such a center could provide benefits to practitioners at schools from the Pre- K to PhD levels who teach through the medium of a Native American language, and include Native American scholars and staff who are fluent in Native American languages and have the demonstrated capacity to reach out and collaborate with Native American communities.The Committee therefore directs the Department to provide to the Committee a report on the feasibility of designating such a center and the potential associated costs	169-170
2018	Hard date	31-Mar-18	Funding Announcement to be made available	Promise Neighborhoods Extension Grants	Further, the Committee expects that a funding opportunity announcement will be published promptly with funding awarded as soon as possible, no later than March 31, 2018, to limit disruption and uncertainties for grantees. Finally, the Committee encourages the Department to prioritize funding for programs operating in particularly underserved areas.	174
2018	Recurring	Quarterly		Quarterly Student Aid Servicing Report	The Committee directs the Department to continue to provide quarterly reports detailing its obligation plan by quarter for student aid administrative activities broken out by servicer and activity. Further, any reallocation of funds between administrative costs and servicing activities within this account should be treated as a reprogramming of funds, and the Committee should be notified in advance of any such changes.	181-182
2018	90 days after enactment		Briefing to Appropriations and Authorizers on status of automating VA loan benefits	Student Aid Administration -- Collab w/ VA and Defense to automate loan benefits	Therefore, the Committee directs the Secretary of Education to enter into a Memorandum of Understanding with the Secretaries of Defense and Veterans Affairs to automate the application of loan benefits to eligible servicemembers and veterans using information in existing Federal databases in a timely manner so that servicemembers and veterans can receive the benefits due under law. The Committee further directs the Secretary of Education to brief the Committees on Appropriations of the House of Representatives and the Senate, Senate Committee on Health, Education, Labor, and Pensions, and the House Committee on Education and the Workforce on the plan for implementing this automation process within 90 days of enactment of this act.	182
2018	None Specified		Report to Appropriators and Authorizers on statutory authorities needed to provide flexibility to institutions in distressed communities	Student Aid Administration -- flexibility for Distressed Localities	The Committee is concerned that some public institutions of higher education operating in economically distressed communities have faced challenges in meeting statutory requirements to manage and prevent student loan defaults because of community-wide factors where the institution operates. The Committee strongly encourages the Secretary to use any authority available, including under section 435(a)(2)(iii) of the HEA, to provide flexibility in applying section 435(a) to institutions of higher education in severely distressed communities in the United States, including institutions operating in counties ranking in the bottom 5 percent of all counties in the Distressed Designation and County Economic Status Classification System of the Appalachian Regional Commission, or based on other commonly used indices or measures. The Committee directs the Secretary to report to the Committees on Appropriations of the House of Representatives and the Senate, the Senate Committee on Health, Education, Labor, and Pensions, and the House Committee on Education and the Workforce on any additional statutory authority the Secretary may need to provide flexibility to such institutions.	182
2018	Within 180 Days of Enactment		Guidance to be issued on how institutions can allow state-based advisers on campus without violating preferred lender rules	Student Aid Administration -- Loan Advisory Guidance for State-based organizations	The Committee directs the Department within 180 days of enactment to issue guidance to clarify how colleges and universities can allow state-based organizations to participate in advising students on campus without violating Preferred Lender List rules. Pursuant to statutory restrictions, such guidance should not permit institutions of higher education or State-based organizations to directly market or advertise Statebased education loan programs to students.	183

AMERICAN OVERSIGHT

2018	"As Expeditiously as Possible"	General directive: Discharge loans ASAP	Student Aid Administration -- Discharging Corinthian Loans	Student Loan Discharges.—The Committee recognizes that there is ongoing disruption to and burden on the lives of students from the closure of and misconduct by Corinthian Colleges, Inc. [CCI]. Former students who enrolled in many programs of study at more than 100 CCI campuses were provided with highly misleading job placement rate information. At least 45,000 former CCI students have pending applications with the Department for a discharge and refund of their fraudulently issued federal loan debt, and the Committee believes that many more students have not applied. The Committee directs the Secretary to process applications as expeditiously as possible, and ensure students are aware of their potential eligibility for relief by identifying and contacting borrowers who may qualify to assert a defense to repayment utilizing the program- level enrollment information provided to the Department by states in 2016.	184
2018	None Specified	Must Collaborate	Student Loan Servicing	During the collaborative information gathering and stakeholder engagement effort related to the new servicing environment that was announced on August 1, 2017, the Department is directed to engage with the Committees on Appropriations of the House of Representatives and the Senate, the Senate Committee on Health, Education, Labor, and Pensions, and the House Committee on Education and the Workforce to gather input from Congress on the design of this environment.	184
2018		None Specified, but recommend a periodic report/letter	Student Loan Servicing	In addition, the Committee reiterates the directive included in bill language in the Consolidated Appropriations Act, 2017, and included again in this bill, requiring the Department to allow borrowers, when consolidating student loans, to select from any of the existing servicers to service their new consolidated loan. The Committee is deeply concerned with how the Department has adhered to congressional directives in this area, including its plan to ignore this directive, as part of their proposal to move to a single-servicer model.	184
2018	None Specified	Peer review and award grant funding: Must grant funding to applicants who would have received FY 2017 award had they been reviewed at the time	Upward Bound	The Committee directs the Secretary to peer review fiscal year 2017 Upward Bound applications that were initially determined ineligible for further review based on minor technical issues with their grant application. Further, after such review, the Committee directs the Secretary to award funding to any applicants that would have received funding in the fiscal year 2017 grant competition had they been allowed to be reviewed then. The Committee recommendation includes an increase for TRIO to ensure that current grantees are not adversely impacted by any grant awards that result.	188
2018	None Specified	TRIO Deadline Review	TRIO	The Committee continues to be concerned with the timeliness of the Department's announcement of TRIO grant awards and the impact on grantees. The Committee directs the Department conduct a review of all grant award deadlines related to Federal TRIO programs and implement recommendations for upholding these deadlines, or modifying them to better-align with grantees' program year and to prevent disruption among grantees and the servicesthey provide.	188
2018	None Specified	Advance notification for grantees whose funds may not continue without corrective action.	TRIO/EOC	Except in extraordinary circumstances, the Committee directs the Secretary to ensure that grantees are notified at least 90 in advance that they are in danger of not having their grant continued unless they take specific corrective actions. Further, the Committee directs the Secretary to provide particular flexibility to new grantees, grantees operating in particularly underserved areas, and grantees facing other extenuating circumstances. Accordingly, the Department shall provide continuation grants to EOC programs according to their initial grant awards.	189
2018		NOFA and Establishment of maximum award that accommodates larger grants under previous State competitions.	GEAR UP	The Committee directs the Secretary to announce in the Federal Register a Notice for Application for New Awards for State grants for this fiscal year and establish a maximum award for such awards that accommodates the larger grants made to States under previous grant competitions. The Department is strongly encouraged to publish the notice inviting applications as soon as possible. The Committee believes that the rejection of the budget's proposed cut to GEAR UP enables the Department to prevent State grantees that received higher annual grant amounts based on prior competition maximum award amounts from reducing services as a result of a potential lower maximum award for a State grant competition in 2018.	189
2018	Within 90 Days of Enactment	Operating Plan	IES	The Committee directs the Director to submit an operating plan within 90 days of enactment of this act to the Committees on Appropriations of the House of Representatives and the Senate detailing how IES plans to allocate funding available to the Institute for research, evaluation, and other activities authorized under law.	191

2018	(Check '17 for deadlines?)		Briefing	IES/Privacy	... the Committee continues to direct the Department to ensure that its employees, contractors, and grantees, including States that receive funds from Statewide Longitudinal Data System grants, adhere to the strictest and highest standards for protecting personally identifiable information. The Committee notes the Department is planning, pursuant to Senate Committee Report 114–274, to report to the Committees on Appropriations of the House of Representatives and the Senate, as well as to the Senate Health, Education, Labor, and Pensions Committee and the House Education and the Workforce Committee, on the actions it has taken to comply with this directive.	191
2018	Likely 30 days after enactment, then quarterly thereafter	Quarterly	Quarterly Report	Borrower Defense Claims Reporting	Borrower Defense Claims Reporting.—The Committee directs the Department to report on a quarterly basis to the Committees on Appropriations of the House of Representative and the Senate, the Senate Committee on Health, Education, Labor, and Pensions, and the House Committee on Education and the Workforce, on the receipt and processing by the Department of borrower defense claims made pursuant to section 455(h) of the HEA. This should include information on the total number of pending borrower defense claims, total number of approved borrower defense claims, total dollar amount of relief, and total number of denied claims, including disaggregated by State. The report shall also include specific actions taken and planned to process this workload in a timely manner. The Committee strongly encourages the Department to make the reports publicly available on its website.	194
20118	15 days before transferring funds			Pooled evaluation	The Committee requests that the Department provide a report to the Committee on the planned use of pooled evaluation funds under section 8601 of the ESEA, consistent with the required plan under such section, not later than 15 days prior to any transfer of funds.	194

Colleagues,

We look forward to seeing you in Managing Creativity tomorrow October 31st, 8:30a – 12:30p in room LL320. Remember, in preparation for our work together bring with you a managing challenge you are currently confronting. Write this challenge as a primary problem statement. For example, I might write, "We need to expand the reach of our training workshops…). Keep the challenge's scope limited. It is important you come to class having given this thought as the statement adds real value to our work.

Best regards,

Subject: Meeting Request with Dr. Johnson for Wednesday, November 1, 2017

Linda,

As a follow-up to my voicemail, I wanted to write to request a meeting with Dr. Wayne Johnson on Wednesday, November 1 for our client Career Education Corporation (CEC). Todd Nelson, CEO, and Jeff Ayers, General Counsel, of CEC will be in Washington and are interested in meeting Dr. Johnson.

By way of background, Career Education Corporation is the parent company of

AMERICAN OVERSIGHT

Colorado Technical University (CTU) and American Intercontinental University (AIU). Career Education's academic institutions offer a quality education to a diverse student population in a variety of disciplines through online, campus-based and blended learning programs. The two universities – American InterContinental University and Colorado Technical University – offer degree programs through the master's or doctoral level as well as associate and bachelor's levels. Both universities predominantly serve students online with career-focused degree programs. Additionally, AIU and CTU continue to show innovation in higher education, advancing new personalized learning technologies like their intelli path adaptive learning platform.

As a Title IV Participating institution with student enrollment at approximately 36,000 students, we wanted to take this opportunity to introduce the schools and programs to Dr. Johnson, as the new Chief Operating Office of Federal Student Aid.

Please let me know if you are able to accommodate this request.

Kind regards,

Good morning Kathleen, Charles, and Colleen - please see OMB's email below about their interest in discussing your APGs and related strategic objectives. If you can make today's time (1230-2pm) work, I recommend we talk to them today given our clearance and Congressional consultation timelines. Please let me know as soon as possible. In the meantime, I'll ask OMB to provide more background on what exactly they'd like to discuss. Thank you!

Hi Erin,

I wanted to see if we can schedule a time for tomorrow or Monday to go through a couple remaining issues. So you know who from ED to include on the call, we'd like to discuss:

- **APG #2 on page 2, related to customer service for FSA. I assume it would be good for someone from FSA to be on the call.**
- **APG #3 on page 2, related to data security.**
- **Strategic Objective 2.5, on page16, related to the implementation strategies.**
- **Strategic Objective 3.2, on page 19, related to the implementation strategies.**

The following times work for us:

Hi Bert – I am following up with a clean version of the Department's FY2018-22 Strategic Plan. It incorporates the edits from the redline I shared yesterday and shows the formatting and graphics that we added to make the document more visual. In summary, the content is the same, but it will look different. Thanks again and please let me know if you want to schedule a call for next week to discuss questions or our timeline for Congressional consultation. Thank you!

AMERICAN OVERSIGHT

Hi Cat and Bert,

I am writing to check-in about the status of OMB's feedback on the draft FY 2018-22 Strategic Plan and draft FY 2018-19 Agency Priority Goals. As discussed during our August 24 call, we are interested in learning whether OMB has any questions or concerns as we work to establish performance metrics and draft the Annual Performance Plan. I can also reach out to Mary if you think that would be helpful. Thank you!

Sincerely,
Erin

Hi Erin,

So sorry for the delay. I believe we are on track to meet the 10/13 deadline, and thanks for following up! There's been some shuffling in the branch, and Bert Wyman (cc'd) will be the main point of contact for performance moving forward. You should look out for an e-mail from him with feedback on the APGs in the next day or so.

Thanks again for your patience!

Best,
Cat

Hi Mary, Cat, and Will –

I am writing to check-in with you on the draft FY 2018-22 Strategic Plan and draft FY 2018-19 Agency Priority Goals that we submitted to you on September 11. As you know, GPRAMA requires congressional consultation and stakeholder feedback inform the final draft of the plan. Given OMB's deadline for the final draft, we will need to do that step in November and request that you **send comments or questions by Friday, October 13**. This timeline will allow us to review your feedback and discuss any open questions or concerns before we do that outreach. Additionally, once we have your feedback we can schedule a meeting the third or fourth week of October to discuss metrics ideas for the FY 2019 Annual Performance Plan. Thanks so much and please let me know if you have any questions.

Sincerely,
Erin

Financial Aid Reform Measures -- COO's CR

Hi Linda:

I apologize for these somewhat narrow time windows, but here are the times that John and I would be able to meet and safely make the meeting on time given our flights and presentations that we have to do at the IECA conference:

Thursday 11/16: 1:30pm-6pm

Wednesday 11/15: noon-1pm

The last option may be tight given John's flight schedule, but barring a flight delay, we should be OK.

If none of the above work, I could meet with Dr. Johnson Wed. 11/15 – 8am to noon or Tuesday 11/15 - 3:30pm-5pm, but I would have to meet solo as John would be unavailable. Summarizing, the Thursday 11/16 option would be best as John's input on this matter is important. I'll keep my fingers crossed that this time window would work for Dr. Johnson. Take care and I appreciate your assistance on this.

Subject: Financial Aid Reform - Benner & Baworowsky in DC next month

Hi Mr. Mayes:

Dr. Baworowsky and I will again be speaking in Washington, DC November 15th and 16th at a higher education conference (IECA), and we were hoping to secure a brief meeting with Secretary DeVos regarding some of our financial aid reform measures. As previously mentioned, we have been researching and speaking nationally about this topic since 2014 and have some realistic and achievable reform measures that are backed by data. We would be available the following times and could possibly rearrange or extend our schedule if there are conflicts during this timeframe:

Tuesday Nov. 14th: 3pm on
Wednesday Nov 15th: 7am – 1:30pm
Thursday Nov 16th: 1:30pm on

Thanks and we appreciate your consideration of meeting with us.

Subject: Financial Aid Reform - Benner & Baworowsky

Hello Secretary DeVos:

I am a senior university administrator who speaks nationally on the topic of financial aid reform along with one of my colleagues Dr. John Baworowsky, who is Vice-Provost of Enrollment Management at Marquette University. John and I have addressed the topic of

AMERICAN OVERSIGHT
ED-17-0431-B-000323

financial aid reform at various national conferences throughout the United States for a number of years. One of our proposals was implemented (although not necessarily because of us) and is currently having some very promising results. I am referring to "Prior-Prior", whereas students can complete a FAFSA beginning on Oct. 1 based upon their parents' previous year's income. Although data is difficult to attain at this point, John and I have been some of the first to gather data on the impact of Prior-Prior, and we're finding some interesting, namely positive results. We were invited to speak about Financial Aid Reform in Washington DC on August 7th at 1:30pm by a group called the RTM Higher Education CIO Congress. Since we will be in DC a day or two following, we wanted to take the liberty of asking you if we could meet with you for about half an hour regarding our data as well as our reform measures. Given that we are "in the trenches" setting financial aid policy at our institutions, and are data driven professionals, we think it would be a productive half hour, as we would like an audience with you and feedback on our reform ideas. Would such a meeting be possible either the morning or evening of August 7th, or anytime on the 8th? Take care and we would love to share some of ideas with you if not in August, then sometime down the road.

Good Morning All,

This invite is to conduct rehearsals for the General Sessions and Open Forum at the FSA Training Conference (FSATC). Please be prompt. The onstage rehearsal is meant for the presenter to get a feel for the stage, make lighting and sound checks and run through audio and graphic cues/transitions. It is also a time for the technical crew to become familiar with the presentation and work out any glitches.

This is not the time to be making changes or reading through a presentation for the first time. Onstage rehearsal time is very limited and expensive and having a crew sit idle while presenters work out details of the presentation is not effective.

Our current timeline of rehearsals is as follows:
5:00pm – Day 1 General Sessions (Welcome, Secretary Keynote, Disaster Relief, Federal Update and Verification and Conflicting Information)
5:30pm – Open Forum Rehearsals (Open Forum Panel and moderator)
6:00pm – Day 2 General Sessions (FSA Chief Operating Officer Keynote Address and FAFSA® and CPS Update)

TIPS FOR WHAT TO WEAR WHILE ON STAGE/CAMERA:
For Men:

- No white colors for shirts and black colors for jackets
- No light green colors
- No busy patterns like hounds tooth or tight/small stripes

Colors that work:

- Blue

AMERICAN OVERSIGHT
ED-17-0431-B-000331

- Pink
- Regular striped shirts

For Women:

- No loose collars
- If not wearing a jacket, please wear a stiff/regular collared shirt to ensure a microphone placement location

Feel free to contact me directly if you have any questions and/or concerns. My cell phone is highlighted below.

Good evening Wayne,

I look forward to seeing you next Tuesday at our Project Success update. If your calendar allows, I would like to take the opportunity to follow up with you on our previously discussed topics of bankruptcy servicing, loan securitization, and servicing of the direct loan portfolio.

ECMC has the opportunity to offer the loan servicing leadership that you have previously inquired about. Given the ED releases of the past few days, and our prior conversation, I would like to take a few minutes when we are in town to discuss whether ECMC being in a position to service the DL portfolio is something you continue to see value in. Given our history of success with students, positive relationship with FSA, and unique position, I know we would be a great partner for writing the next chapter of Federal Student Aid.

Please let me know if this is a discussion that you are interested in having and we will work to schedule time for when we are in your offices next week.

On December 4 Parker Reynolds reached out to FSA with the following email:
Mr. Patterson, I wanted to make sure you had a copy of a letter Congressman Rokita sent yesterday to Secretary DeVos that cc'd Mr. A Wayne Johnson. This letter has to do with the scoring methodology of subordinated debt versus regular debt. I think Mr. Rokita is interested in connecting with Mr. Johnson at some point next week to discuss the issue, and wanted to make sure that you had a copy beforehand to review. Thank you very much.

Charles,

I've got the final manifest for our meeting on Tuesday.

1. Cheryl Parker Rose, Assistant Director for Intergovernmental Affairs
2. John Pitts, Deputy Assistant Director for IGA
3. Rich Williams, Policy Analyst, Office of Students
4. Leslie Parrish, Expert, Research, Markets, and Regulations

Rich and Leslie are the subject matter experts who worked on the research on campus banking products, and they will lead the discussion. We won't need any A/V equipment, but Leslie will be dialing in from Colorado, so if we could have a phone set up and number that would be great.

Looking forward to a fruitful discussion.

John

This meeting is being rescheduled from its original date of January 22 which we had to postpone due to the Government Shutdown.

This meeting will take place at Federal Student Aid, Union Center Plaza, 830 First Street, NE. We are down the street from Union Station and the Capitol and share the building with CNN. When you enter the building go to security on the right. They will call me to come pick you up. (Linda Holland – 202-377-3712)

As you know, the Department of Education is embarking on a major effort to redesign the student loan servicing environment. As part of our market research for this we would like to speak with you and some of your colleagues in the student loan consumer advocacy community to provide some information on our plans and hear your ideas, concerns, and suggestions. Follow the link below for some background; the document includes many of the questions we'd like to discuss along with discussing your general comments and concerns. While we are interested in any thoughts you have, we'd particularly appreciate your views related to questions 11 and 12 in the Request for Additional Market Research Information posted on December 18. Thanks.

the last minute scramble!

As you likely know, my office helps facilitate access for Government Accountability Office (GAO) engagements for the Department. Per below, Melissa Emrey-Arras, Director for GAO's Education, Workforce and Income Security group, has requested a meet and greet with you three for her and Barbara Bovbjerg, Managing Director for Education, Workforce and Income Security. Dianne Naber on my staff will work with you all and GAO to facilitate this request. Please let us know with whom she should coordinate on your schedules. I will plan on joining the meeting as well, if possible, and Joe Conaty will likely also join since he has broad visibility into our work with GAO.

Thanks,
Tracey

Subject: Meet and greet with ED officials

Hi Tracey,

Happy holidays! I'm reaching out to see if we could set up a friendly meet and greet with some of the Education officials connected to higher ed. Would it be possible to arrange a time for Barbara Bovbjerg, myself, and one of our higher ed Assistant Directors to meet with Dr. Wayne Johnson, Jay Hurt and Michael Dean? (Matt Sessa mentioned that Jay Hurt will be taking over his work when he leaves ED. Matt also said that it would be helpful for us to meet with Michael Dean.)

Would one of the following dates/times work for a meet and greet at Education? (We're happy to meet at your offices—just let us know which ED location is best.)

* 1/25— 10am or 10:30am
* 2/1— 3pm
* 2/8—10am or 10:30am

Best,
Melissa

Hello all,

Wayne stopped by this morning and asked me to convene an internal meeting to discuss where we are with FAFSA 3.0 and to determine next steps. People's schedules are tight especially with the holiday weekend. However, this time next week appears to work for most folks.

Thanks,

McGraw-Hill Education (MGE)-Payment Card Pilot Program Discussion -- CR#112B1
From: Smith, Amy [mailto:Amy.Smith@arnoldporter.com]
Sent: Thursday, February 15, 2018 12:07 PM
To: Stevenson, Nicole
Subject: meeting request regarding FSA payment Card pilot program (not solicitation) - March 5

Ms. Stevenson,

Good morning. I am writing on behalf of McGraw-Hill Education (MHE) to inquire who might be the best person at FSA to discuss details of the Next Gen Payment Card Program Pilot. MHE is not interested in being a vendor for the pilot and will not submit a response to the solicitation. Instead, it applauds FSA's efforts to update students' financial aid experiences and simply wants to ensure the new pilot program to disburse student aid dollars and other funds does not restrict student purchases from education content providers.

On **Monday, March 5**, leaders from MHE, the Association of American Publishers, and other leading education publishers will be in Washington, DC and would like to meet with FSA officials who are developing the pilot to discuss issues related to student choice in instructional materials and the use of payment cards on campuses. If you would be so kind as to refer me to the appropriate person to request such a meeting on March 5th, I would greatly appreciate. Thank you in advance, and do not hesitate to reach out with any questions.

Sincerely,
Amy

Colleagues,

I realize that this mail list may not re[redacted]lect recent personnel changes and appreciate any efforts you can make to ensure that the invitation is extended to the correct people. The purpose of this meeting will be to prepare for the quarterly performance review on March 28th with the Deputy Secretary. We especially need the objective leaders prepared to report progress on the milestones. We will use a part of this meeting to introduce our new goal leader – Frank Brogan – to the goal two leaders and the information we will be presenting to the PIO on the 28th. Thank you for making the necessary adjustments to attend this meeting.

As always, if you have questions or concerns, please feel free to reach out to me.

I have provided, as requested, two links to *Federal Register* notices in which we ran competitions for the "spin-off" of intellectual property. In the most recent spin off of Teach.Gov, we used the following notice:
https://www.gpo.gov/fdsys/pkg/FR-2011-04-19/pdf/2011-9485.pdf

For U.S.A Learn, another intellectual property, we used the following notice:
https://www.gpo.gov/fdsys/pkg/FR-2008-12-01/pdf/E8-28478.pdf

I am also attaching two recent cooperative agreements that we have used.

Johnson, Wayne

Hi Team,

AMERICAN OVERSIGHT

This internal pre-meet will be to discuss questions from the hill about the payment vehicle in advance of hill briefings next week.

Attached are two letters with questions from various Senate offices and below are questions from the Education and Workforce Committee to facilitate our discussion.

QUESTIONS FROM ED AND WORKFORCE:

Process

1. How long will the pilot be?
2. FSA stated in the pre-solicitation notice that in order to load the payment card with loan refunds, the institution would be responsible for this task and communicate with students about the fund status as they currently do. Can you explain the relationship the institution will have with the program manager and all the parties involved?
3. When providing the assessment of the pilot program, what metrics will FSA use to determine its success? Will it simply be based on the number of students that take advantage of the program? Also, what is the likelihood that this program would not continue to move forward given the results of the assessment?
4. FSA indicated that the program manager(s) selected for the pilot program may be able to expand beyond the pilot phase with the approval of FSA under the same terms and conditions as contracted for under the pilot program. Is it the expectation that the program manager(s) selected for the pilot will be the only ones providing the services if the pilot is extended? What is the likelihood that additional program managers would be selected and would their terms and conditions mirror those of the program manager(s) already in operation?

Oversight

1. It is our understanding that the payment card program will not charge any fees to the student or the institution. How does FSA plan to provide proper oversight to ensure that hidden fees are indeed not being charged? Is it the intention that fees will not be charged as long as a borrower is enrolled at an institution? Considering the nature of the desired long-term financial relationship, will there ever be fees passed along to the borrower?

Data Security

1. The pre-solicitation notice states that "all data associated with the FSA Payment Card Program belongs solely to FSA." Given this statement, what will the data sharing agreement between FSA and the program managers regarding the borrower's data include? More specifically, does FSA plan to obtain data when a borrower enters into new financial relationships with the program manager? If so, what is the reason and rational for accessing that data?
2. It is mentioned in the pre-solicitation notice that the payment card program would be highly restricted to cross marketing without the consent of the borrower. Is it the intention of FSA to require program managers to require borrower to consent to each type of marketing practice or have a blanket "one size fits all" consent structure for the marketing of various products?
3. To protect against fraud, a majority of financial institutions have enabled additional card security measures to include CHIP. Can you explain the level of security that will be placed on the payment card?

AMERICAN OVERSIGHT
ED-17-0431-B-000432

Exceeding FSA's Role

1. A large number of the desired additional program functionalities would extend well beyond allowing borrowers to receive loan refunds. In particular, the ability of borrowers to set up various financial accounts, participate in rewards programs, and transfer and receive funds from peers are functions that consumers have access to at commercial banks. Given the FSA's role in administering the student loan program, what authority does FSA have to partner with the financial sector in this capacity?
2. Future borrowers may have the ability to mix funds, so their account could contain federal student aid, money from friends and family, and paychecks earned from work. Would the counseling feature prohibit borrowers from using the dollars not associated with federal aid on non-education purposes? Will FSA have access to the data that shows where they money is coming from, how often they are getting additional funds, and how much they are getting? How will FSA draw a distinction from federal and non-federal sources?

Please let me know if you have any questions and see you tomorrow!

Regards,
-Scott

Hi Wayne,

Great to re-meet you at SXSWedu. My uAspire colleagues and I appreciated your presentation on the FSA app development - very exciting work for students and all financial aid stakeholders.

I am writing to follow up on our conversation regarding award letter review and comparison portion of the app. As discussed uAspire is a national nonprofit that supports over 10,000 students/year to navigate financial aid, Award letters is one of or areas of expertise - both how to review and compare with students as well as policy efforts to make award letters more transparent (Senate HELP hearing testimony attached).

I'd like to set up a time to learn more about how uAspire can support you and FSA in the app tool development process overall and in particular for the award letter section. Please let me know if any of the windows below work to talk for a 30-min call.

Thank you, Laura

I'm writing this note to help coordinate an introductory conversation between Rose Corvo, Chief Administrative Officer for Early Warning Services and Wayne Johnson, Chief Strategy and Transformation Officer for Federal Student Aid. As clients of Huge, we believe that tremendous value for both organizations - and student borrowers - will result from this connection.

For the initial discussion, we suggest that Wayne could give an overview of his vision for Next Gen and an update on where the initiative currently stands. Rose would share relevant background information on Early Warning, focusing on their broader capabilities in safely and swiftly facilitating real-time disbursements for corporate and government customers.

Hello Dr. Johnson,

Thank you again for taking my question this afternoon and stopping to chat with me after your presentation. It was very encouraging to hear the Department's desire to create a world class EdFinTech experience with help from private partnership.

I was able to briefly show you the Fidelity Student Debt Tool (on mobile no less!) while we were chatting and you were very interested in seeing more of it and hearing generally about the student debt work at Fidelity. I think you will find our tool to be best in class, we have mobile and browser support, we allow for NSLDS uploads, we meticulously handle the details of each federal repayment plan and in general the users of our site have had incredible feedback and satisfaction using our tool.

We would love to come to DC to do a demo of the tool for you and your team in person and have a broader conversation about any partnership opportunities.

Please let me know if you would be open to meeting with us.

Thank you for your time,
Mike Rusinak

Patrick

ED Colleagues,

On July 19th, the 2016 team of Teaching and Principal Ambassador Fellows will be hosting a capstone event for our Fellowship year. The Convening on Systems of Support for Excellent Teaching and Leading will seek to build on the Fellows' work this year through the development of a framework to assess the alignment of systems of support for educators to core principles that have been identified through outreach and research. The draft framework, which will be revised and developed throughout the day on the 19th, is attached.

The Fellows have worked with CCSSO on the development of the agenda (draft attached) for the day. Participants in the convening will include teachers and administrators that have worked on educator supports through Teach to Lead, representatives from Teach to Lead supporting organizations, and staff from several SEAs and LEAs.

We would love to have as much participation from staff at ED as possible throughout the day. This could simply involve stopping by Barnard to observe whatever part of the convening your schedule will allow, or, if you have available time, we would love to plug you into the work that is occurring during the event. If you are interested in joining a work group during the day, please let me know so we can plan accordingly in our planning.

Please let me know if you have any questions about the convening, and please feel free to send this calendar hold to anyone that you would like within ED.

Thanks so much, and the TAF/PAF team hopes to see you on the 19th!

Time 11:30 AM – 12:00 PM
Subject Meeting with National Writing Project
Location WDCFB6-6C101
Show Time As Busy

Attendees:

Ellen Fern (Policy Consultant to the National Writing Project);
Judy Buchanan (Deputy Director of the National Writing Project); and
Elyse Eidman-Aadahl (Executive Director of the National Writing Project)

Request:

Hi Ebony –

My name is Ellen Fern, and I work with the HYPERLINK "https://www.nwp.org/cs/public/print/resource/4649 " National Writing

AMERICAN OVERSIGHT

Project (NWP) here in D.C. You may know about HYPERLINK "http://ar15.nwp.org/" NWP's work from your time at the Gates Foundation. But very quickly, the NWP provides sustained, focused professional development for all teachers through partnerships between K-12 public, private, and charter schools and higher education institutions with the goal of improving writing and learning for all students. The NWP network of Writing Project sites, located on nearly 200 university and college campuses, provides high-quality professional development in schools, universities, libraries, museums, and after-school programs. Local Writing Project teacher leaders reach over 3,000 school districts annually.

I wanted to request a meeting with you on Tuesday, July 25th or Wednesday, July 26th to introduce ourselves and also to brief you on HYPERLINK "https://www.nwp.org/cs/public/print/doc/programs/crwp.csp" NWP's College Ready Writing Project (CRWP). Elyse Eidman-Aadahl, NWP's Executive Director, will be in D.C. on these two dates and thus the request. (NWP national office is in Berkeley, CA). The CRWP was created by NWP as part of the U.S. Department of Education's investing in innovation (i3) validation grant with matching funds provided by the Gates Foundation and the Rural School and Community Trust. The CRWP provided teacher-professional development for secondary teachers in 22 high-poverty rural school districts in 10 states (AL, AZ, AR, LA, MI, MS, NY, OK, SC and TN), delivered by 12 Writing Project sites. A two-year random assignment evaluation from SRI International found that CRWP had a positive, statistically significant impact on student writing.

The CRWP evaluation (conducted by SRI International – executive summary HYPERLINK "https://www.sri.com/sites/default/files/publications/sri-crwp-research-brief_nov-2015-final.pdf" here) is one of the largest and most rigorous to find evidence of impact: Key findings showed that the NWP professional development model had a positive impact on both teachers' instructional practice and their students' writing. Specifically:
An overwhelming number of teachers (76% across 22 districts) consistently participated in at least 45 hours of professional development annually. This significantly impacted:
the instruction students received; and,
the proficiency of students on complex writing tasks such as connecting evidence to an argument.
CRWP students outperformed students in control districts on four attributes of argument writing – content, structure, stance and conventions.

I know you and the Secretary very much want to continue to support high-quality, evidence-based professional development, and thus would very much like to introduce you to the work of the NWP which has been supported also by the Supporting Effective Educator (SEED) grant funds as well.

AMERICAN OVERSIGHT

Thanks so very much in advance. Hope this timing works.

Best, Ellen

Monique et al,
Thanks. I am just putting this on our calendars for those who responded already. I am sure I will hear from others; I will forward this invite to them as I hear from them.

I know that this time may not work equally well for all, but do come for any part of it that you can.
Thanks in advance,

Good Afternoon All,

Today we will be hosting the August Federal Interagency Meeting at the DOED headquarters. Most of the individuals are scheduled to participate in the conference and have been actively creating content to share during the event. I was originally planning on sharing the latest updates before the conference at this meeting, but I know things are still up in the air.

Are there any representatives from DOED planning on attending the Interagency meeting today? If not, what should I tell our important partners regarding the conference?

Thanks,
Tammi Fergusson

Good Afternoon Adam,

My name is Tammi Fergusson and I am the Senior Program Analyst for the White House Initiative on HBCUs. You were referred to me by Ebony Lee to act as the WHI-HBCU Federal Liaison on behalf of the Department of Education. The liaisons and representatives attend our monthly interagency meetings, provide agency updates regarding grants and programs and represent their respective agency during initiative events.

Tomorrow, I will be holding a call for select agencies that were requested to present during the 2017 HBCU Week Summit. Please review the invitation and join us for the call. I will be going over some logistics and answering any questions you might have regarding the request.

Thank you in advance for your participation and I look forward to speaking with you tomorrow.

edX Sec DeVos Meeting Request Form - July 2017 (1).docx

Show Time As Busy

Attendees: Lee Rubenstein, Vice President of Business Development, edX
Lesley Albanese, President and COO of Center for Education Reform
TOPIC: To discuss how edX, the non-profit established by Harvard and MIT five years ago, is leading the transformative digital learning approach to education, what that means in terms of the Secretary's stated mission, and how we can best advise and deploy at a fractional cost to reach millions of underserved and overcharged learners of all ages in the US.

I have attached the following materials:
Anant Agarwal's original introduction letter requesting a meeting with Secretary DeVos
DOE Meeting Request Form
Bios for Anant Agarwal & Lee Rubenstein
Current edX media kit
HYPERLINK "https://www.youtube.com/watch?v=rYwTA5RA9eU" Link to Anant Agarwal's TED talk
HYPERLINK "http://www.cc.com/video-clips/zwqhae/the-colbert-report-anant-agarwal" Link to Anant Agarwal's appearance on Colbert Report

Items for edX Discussion with Secretary DeVos:

Prof Anant Agarwal, MIT Professor and CEO of the non-profit learning platform HYPERLINK "http://www.edx.org/" www.edX.org which was founded jointly by Harvard and MIT, will be coming to discuss his views on the digital transformation of education in this country and the opportunity we have to exponentially improve access to the best learning for all classrooms via HYPERLINK "https://www.edx.org/" edX.org and the edX open source platform, at a fraction of the cost of what was previously possible. As background, edX now includes over 1200 courses from a majority of the world's top 100 Universities who are edX Members, and who are contributing courses to improve access to education for all as part of a global mission.

Designed to maximize learner outcomes, edX is already being deployed

AMERICAN OVERSIGHT

by teachers and schools around the country at no charge, and Anant has great aspirations to impact more lives by supporting the Secretary's stated vision for improving US education. We are 5 years old and just beginning but already have a full portfolio of AP prep courses, teacher training courses, TOEFL prep courses, a Global Freshman Academy of courses on edX for college credit, college and professional education courses, and even courses on coding for kids. The edX world class technology is deeply proven and deployed at global scale to over 14 million registered learners of all ages, who have taken 35 million course instances to date generating many terabytes of keystroke data that has informed some powerful insights we want to share with the Secretary where we believe it aligns with her stated mission. We plan to briefly cover the edX story, mission, and vision with Secretary DeVos, where we believe there are opportunities that will provide large scale improvements at fractional cost, and we will hope to get her thoughts and feedback on how we may be able to work together to align with her goals to drive innovation and improvement across our educational systems.

Alexandra Sollberger, principal, Stones River Group

Note: This meeting request came from (b)(6)

YouScience is all about aligning education with workforce needs, helping to identify student talent early on so we can better guide students to the right education curriculum and postsecondary (not just 4 year but credentials and so forth) pathways, while also raising' awareness of real-world jobs. YouScience is the first platform to measure both interests and aptitudes (most existing programs only look at interests, which is severely limited) and then overlay the resultant findings with BLS and DOL data on the needs of the modern workforce

AMERICAN OVERSIGHT

The YouScience program has successfully identified a more diverse talent pool, helping expose female and minority students to in-demand careers that they may not have otherwise considered.

Thanks Terrell! I really appreciate your making the connection to Ebony.

Ebony, I'd be delighted to connect with you and share some of the things we're working on, and some of the things that seem especially interesting that other institutions are also working on. I've copied my assistant Lori Ray who can help with my calendar; please let me know if there is someone we should work with to set up a call or Skype.

Thanks again,

Subject: Introduction

Harrison -

I hope you are doing well. I wanted to take a moment to introduce you to Ebony Lee. She is serving as the Deputy Chief of Staff at the US Department of Education. Ebony is currently working on a project trying to identify some of the most innovative activities going on in the higher education space. Naturally I thought of you. This introduction is connect the two of you in the hopes that you can share some of the exciting things you are working on at UT Austin.

Ebony -

Harrison is the Deputy to the President for Strategy and Policy; Clinical Professor of Public Policy Practice at UT Austin. He is engaged in designing and implementing many innovations at UT - particularly focused on increasing student completion. He not only knows what is going on at UT, but is also involved in several national initiatives.

I hope the two of you find the opportunity to connect.

All the best -
Terrell

Subject MEETING: Agudath Israel of America
Location Jason's Office 3W315
Attachments Comments on Ed Regs 2017.pdf
Show Time As Busy

Meeting Name: MEETING: Agudath Israel of America
Purpose: To discuss a potential BDV visit to a Jewish school and discuss recently submitted comments and suggestions for reducing or changing regulations related to non-public K-12 and higher education.
Date: November 7th 1:30PM-2PM
Location: Jason's Office

ATTENDEES
Rabbi A. D. Motzen
Rabbi Abba Cohen

AGENDA
1. Jewish school visit – when we met with the Secretary in March, we raised the possibility of a visit to a Jewish school and there has been positive reaction to the idea. We would like to discuss the "kind" of school in our community would best fit the bill for a positive and productive experience.
2. Tax scholarship – we were invited to a WH meeting in the spring with the Secretary and Kellyanne Conway to discuss the President's school choice proposal. We would like to follow up on where the Department's thinking is now on what that bill should look like and the best strategy to pursue it.
3. ESSA issues – I am attaching the comments we submitted in September in response to the RFC on Ed Department regulations -- not for you to read in depth and analyze – but to give you an idea of the range of our concerns and the nature of our activity in this area. Depending on time, we would perhaps highlight one or two of these issues.

Hello Ebony,

Thanks for sharing closing remarks with the Ready to govern participants. We're targeting an end time of 12:45, but since this is a smaller group we anticipate the possibility of ending a little early and so wanted to reserve time for you accordingly.

We'll keep in touch with Martha on the day of the event. We'll also update you on how things go after Tuesday morning so you have a sense for the participant's experience and reactions to the content.

Thanks,
Jenn

Thank you for making the time to meet with the School Ambassador Fellows while they are all in town next week!

Mr. Blew, we would love to have you join us if you are available. Our new cohort of HYPERLINK "https://www2.ed.gov/programs/schoolfellowship/ind ex.html" School Ambassador Fellows includes 3 classroom teachers, an instructional coach, a principal, and (for the first time ever) a school counselor. They come with a wealth of experience and expertise in multiple areas, as well as unique perspectives that could offer valuable feedback on Department initiatives. I have attached a map that identifies where each of the Fellows are located, as well as information about our schools, areas of interest, and organizational affiliations. I hope it will be a helpful resource when thinking about which SAFs would be the right fit for assisting with the Department's projects and priorities.

Vijay will call you on your desk phone

Dear Ebony,

I am writing on behalf of the deans of engineering schools in the US. Every year we hold a meeting to address public policy issues. As you can imagine, we are very interested in K-12 education and questions concerning the pipeline for engineering education. Would you be willing to speak to us about your efforts in the Department of Education and your personal views on the challenges and opportunities? Our meeting is from 1 - 2 pm on Tues, Feb 6.

Having served in the government myself, I have found such meetings to be a great opportunity to educate and inform universities. And now as an academic, I find the discussions to be very useful as we think about higher education in this country.

I hope you are able to attend this meeting. Please let me if you can and if you have any questions.

Vijay

Colleagues:

This confirms that we will proceed with the January RRTF meeting on Thursday, January 25 from 2-3. You may have on your calendar another RRTF meeting in Room 6E-251. That is a stale invitation that I will shortly cancel to clean up our calendars. The attached is the correct invite.

At the January 25 meeting, each POC should be prepared to provide the following:

Thanks,
Bob

AMERICAN OVERSIGHT

(b)(5)

Talk to you tomorrow, and thanks!

Hi, Mary and Bert,

My Budget Service colleagues and I have some questions about this apportionment that we think would best be discussed in a brief telephone conference call. Would you be available at 9:45 a.m. tomorrow for 10 minutes or so to discuss?

I see schedule conflicts on some of our calendars here at ED from 10:00 a.m. to 12:00 noon (and schedule conflicts prior to 9:30 a.m.), so if the morning is not good for you maybe we could try for 12:00 noon.

Please let me know. We can set up a conference line if needed, but most likely Valerie, Bill, and I will meet in Larry's office over a speaker phone, so if the two of you do something similar maybe we can just call you directly.

Thanks!

Larry

GAO is beginning a new study on states' tax credit scholarship programs. Senators Murray, Wyden, and Whitehouse requested the study.

GAO's objective is to determine how the 18 states with these programs structured them. GAO understands that ED has no oversight role for the programs, but welcomes ED's perspective and any resources ED would like to share. During the meeting, GAO expects to discuss:
--the preliminary project scope
--any recommendations from ED officials regarding related research or stakeholders.

The attached notification letter from GAO includes additional information.

Maureen Dowling from OII will be the lead for ED during the meeting.

We are also planning a pre-meeting for Monday, April 2. Please let me know if you would like to participate in the pre-meeting.

Thank you all, and please let me know if you have any questions.

Subject: Principals at ED Invitation-April 24

Hello Ebony,

On behalf of the School Ambassador Fellows, I would like to invite you to our Principals at Ed event on Tuesday, April 24th (9am-4pm). The theme is Rethinking the Students' Instructional Day. Please see the invitation below for details. We hope you can make it! Ebony, I know your schedule is tight…feel free to join whenever you can during the day as your schedule allows.
We are working on specific room (location at ED) details as our participation list has grown and we are searching for a larger room/space.

Best,
Scott Crisp, Ph.D., ED 2017/18 US Department of Education - Principal Ambassador Fellow

YOU ARE INVITED!

As the U.S. Department of Education's Principal Ambassador Fellow, I am writing to invite you to participate in a two part Principals at ED learning series hosted at the U.S. Department of Education (ED). Principals at ED has been a signature engagement activity designed by the Department of Education's Principal Ambassador Fellows to better link practice and theory by increasing interaction with school leaders to inform decisions made on policy with real-world impact. To date, there have been 9 successful events that have enabled ED Department staff and particularly senior leadership to engage directly with principals and to hear their unique insights on issues from the field on areas of key concern.

If your schedule allows, please join us on April 24 and June 26 for Principals at ED learning sessions which will focus on "Rethinking the Student's Instructional Day". Sessions start at 9:00 am and conclude at 4:30 pm and will be located at the U.S. Department of Education in Washington, DC.

We realize that it may be difficult for you to commit to a full day of participation. We welcome you to join this day of learning - anytime during the session that best aligns to your schedule. A tentative agenda is provided below for your review.

Objectives: Explore specific elementary and secondary school models, from around the country, that provide students one or more of the following:

AMERICAN OVERSIGHT

Use of flexibility in learning spaces.
Increased levels of active student engagement (vs passive engagement).
Innovative assessments and dual enrollment challenges.
Course delivery systems to control pace and path of learning.

Program development and lead facilitation:

Dr. Monifa B. McKnight, 2016-17 Principal Ambassador Fellow and current Director of Secondary Leadership Development Programs in Montgomery County Public Schools in Baltimore, Maryland.
Megan Power, 2017-18 Teacher Ambassador Fellow and current Learning Experience Designer at Design39Campus in San Diego, California.

Session 1: April 24 9:00am - 4:30pm
Exploration of specific school instructional models

Session 2: June 26 9:00am - 4:30pm

Subject Confirmation of time and location for CTAE/Adult ED/Postsecondary informal meeting

Location Dirksen - SD136 - no call in

Show Time As Busy

This is to confirm the time and location for the rescheduled CTAE/Adult Ed/Postsecondary meeting with Majority Staff from the Senate Appropriations Subcommittee.

Please confirm your plan to attend the meeting by accepting the invitation ASAP.

This is a reschedule of the informal "meet and greet" (originally scheduled for April 17) with the Senate Labor-HHS-ED appropriations subcommittee Majority Staff. The Senate staff attending will be Mike Gentile and Laura Friedel.

Note that we will be meeting in the Dirksen building. They will not be coming to ED.

As discussed in the prebriefing (April 16), they are interested in getting to meet the political folks involved in these areas and aren't asking for a

AMERICAN OVERSIGHT

formal briefing or presentation and don't expect to have a prepared agenda discussion points. They've also indicated that they would prefer to keep career staff attendance to a minimum for this meeting.

Subject Prebriefing for briefing/call with Hill staff on OCR Staffing
Location WDCFB6-5C100 (Managed)
Show Time As Busy

This is a pre-briefing for the meeting scheduled on Monday, May 14.

The House and Senate appropriations subcommittee staff have requested a briefing/call on OCR staffing – specifically "current and planned actions by OCR to add staff per the explanatory statement and funding increase for the office." The language referred to is below and is from the Explanatory Statement that accompanied the Department of Education Appropriations Act, 2018, (which is the ED portion of the

AMERICAN OVERSIGHT

Omnibus).

Office for Civil Rights.—The agreement includes $117,000,000 for the Office for Civil Rights (OCR). The OCR is directed in fiscal year 2018 to use this appropriation to increase its level of full time equivalent employment in order to effectively and timely investigate complaints; execute and report on the civil rights data collection; thoroughly monitor corrective actions of institutions and meet other critical workloads. Further, OCR is directed to maintain its 12 regional offices consistent with the organizational structure described in its fiscal year 2018 and 2019 Justification of Appropriation Estimates to the Congress.

See below for a quick cheat sheet for the finalists today!

Thanks to those of you that can come!

Dear Colleagues,

Thank you for your support of the School Ambassador Fellowship. On Monday, we will welcome seven of the 14 finalists for the Fellowship. They will engage in a fishbowl activity while discussing School Safety. You are invited to join the fishbowl and evaluate our finalists for communication skills, leadership aspects, and the ability to apply their experiences with the data we have supplied them from the Department. You are invited to both days, but if you can only make one, please know

AMERICAN OVERSIGHT

that your expertise and eye are very much appreciated.

We will begin with an introduction of individuals and move on to the discussion for 25 minutes, so we will likely run a little shorter than an hour. An evaluation document will be provided to individuals that attend the Fishbowl.

Thanks,
Celeste

Sorry had a conflict at 10:00 how about 11:00? Will, your email says your window is good through 11:30. Given the questions you just provided today, we can probably get through all that in half an hour.

We can tentatively plan on using this call in number.

Finally, I don't think we settled on a time for the morning of May 15th. Can you send us a calendar invite when you figure out the best time for ED folks?

I am writing to invite you to a joint exit conference call for a GAO study about improper payment risk assessment. OCFO is the lead office on the study. The call will be held on Wednesday, August 9, 2017, from 9:00 to 10:00 AM Eastern. GAO indicates that it will provide a Statement of Facts, but none is available at this time. In the event your office wants the Department to provide written comments on them after we receive

AMERICAN OVERSIGHT

them, please get those comments to April Bolton-Smith with a cc: to Margaret Guenther and Jim Houser ASAP so that they can be incorporated in the first draft of any draft comments Exec Sec distributes for review.

Here is GAO's call information:

Conference number: (b)(6)
Guest passcode: (b)(6)

GAO will want a list of attendees, but will likely not be able to do introductions in a large multiagency exit conference call like this. Please e-mail Margaret Guenther if you participate in the call so she can include you in an attendee list that goes to GAO after the call. (I will be out of the office that week.)

Please do not place the call on hold if you participate. The result of that is the Department of Education's "muzak" starts to play, disrupting the phone call. That can cause us to need to hang up and start the call again using a new call number and passcode. Please keep in mind that if you need to take an incoming phone call, you can hang up on the conference call, take the other call, and dial back in to the conference call.

Thank you.
